Dedication	iii
Contributors	iv–v
Reviewers	vi–vii
Preface	viii–x

Part I. Parenteral Nutrition

A. INTRODUCTION TO PARENTERAL NUTRITION

1. What is Parenteral Nutrition? *A.S.P.E.N.*
2. Parenteral Nutrition *Jennifer Ash, Lesly Jurado*
3. Definitions *Hines VA Hospital*
4. Parenteral Nutrition Additives
 - a. Insulin Regular *MedFacts Patient Information*
 - b. Famotidine Injection *MedFacts Patient Information*
 - c. Ranitidine Injection *MedFacts Patient Information*
 - d. Heparin *MedFacts Patient Information*

B. PARENTERAL ACCESS DEVICES AND PUMPS

1. Peripherally Inserted Central Catheters (PICC)
 - a. Peripherally Inserted Central Catheter (PICC)
The Cleveland Clinic
 - b. Peripherally Inserted Central Catheter (PICC) Placement
California Pacific Medical Center
 - c. Flushing the PICC Line *The Cleveland Clinic*
 - d. PICC Line Injection Cap Change *The Cleveland Clinic*
 - e. PICC Guidelines: Do’s and Don’ts *The Cleveland Clinic*
2. Hickman® Catheters
 - a. Hickman® Catheter *The Cleveland Clinic*
 - b. Flushing the Hickman® Catheter *The Cleveland Clinic*
 - c. Hickman® Catheter Injection Cap Change *The Cleveland Clinic*
 - d. Hickman® Catheter Dressing Change *The Cleveland Clinic*
 - e. Hickman® Catheter Guidelines: Do’s and Don’ts *The Cleveland Clinic*
3. Port-A-Caths®
 - a. Port-A-Cath® *The Cleveland Clinic*
 - b. Port-a-Cath® Care and Maintenance *The Cleveland Clinic*
 - c. Port-a-Cath® Huber Needle Insertion *The Cleveland Clinic*
 - d. Flushing the Port-a-Cath® *The Cleveland Clinic*
 - e. Port-a-Cath® Guidelines: Do’s and Don’ts *The Cleveland Clinic*
4. Home Parenteral Nutrition (HPN): Catheter/Pump Complications
Oley Foundation
5. What You Need to Know About Infusion Pumps *Jennifer Ash*

Table of Contents, CONT.

C. COMPLICATIONS OF PARENTERAL NUTRITION

1. Home Parenteral Nutrition (HPN): Metabolic Complications
Oley Foundation
2. TPN Metabolic Complications *The Cleveland Clinic*
3. Catheter/Pump Complications *Oley Foundation (See I.B 4)*

D. HOME PARENTERAL NUTRITION

1. TPN at Home (Revised for Adult Patients) *St. Jude's Hospital for Children*
2. Home Total Parenteral Nutrition *Memorial Sloan-Kettering Cancer Center*
3. How to Store Your Supplies/ How to Dispose of Used Needles and Syringes *Hines VA Hospital*
4. Washing Your Hands *Hines VA Hospital*
5. Tips for Sterile Technique *Hines VA Hospital*
6. Getting Started *Hines VA Hospital*
7. Starting Your Home Infusion *Hines VA Hospital*
8. Discontinuing Your Infusion *Hines VA Hospital*
9. Dental Procedures for Home TPN Patients *The Cleveland Clinic*
10. TPN Self-Monitoring *The Cleveland Clinic*
11. Monitoring Flowsheets
 - a. Home Nutrition Support Daily Monitoring Record *The Cleveland Clinic*
 - b. Home Monitoring Flow Sheet *Hines VA Hospital*
12. Home Teaching Checklist
 - a. Home TPN Teaching Checklist PICC *The Cleveland Clinic*
 - b. Home TPN Teaching Checklist Hickman® *The Cleveland Clinic*
 - c. Home TPN Teaching Checklist Port-a-Cath® *The Cleveland Clinic*

E. PARENTERAL NUTRITION SUPPORT GROUP

The Oley Foundation *Oley Foundation*

F. MEDICARE AND MEDICAID REIMBURSEMENT FORMS

1. Instructions for Completing DME Information Form for Enteral and Parenteral Nutrition CMS – 10126 *Centers for Medicare & Medicaid Services*
2. Instructions for Completing DME Information Form for External Infusion Pumps CMS – 10125 *Centers for Medicare & Medicaid Services*

Part II. Enteral Nutrition

A. ENTERAL NUTRITION — GENERAL

1. What is Enteral Nutrition? *A.S.P.E.N.*
2. Tube Feeding Quick Reference Guide *Memorial Sloan-Kettering Cancer Center*
3. Tube Feeding Made Easy *Jackson Health System*
4. Your Tube Feeding Guidelines *Greater Los Angeles Veterans Administration Healthcare System*

B. ACCESS DEVICES

1. Nasal Feeding Tube *Novartis Nutrition Corporation*
- 2a. and 2b. Illustrations: Location of NG and ND/NJ Feeding Tubes
Saint Joseph Mercy Health System
3. Balloon, PEG, and Low Profile Gastrostomy Feeding Tubes
Novartis Nutrition Corporation
4. Illustration: Location of the PEG Feeding Tube
Saint Joseph Mercy Health System
5. Illustration: Location of the PG Feeding Tube
Saint Joseph Mercy Health System
6. Gastrojejunostomy or Jejunostomy Tubes *Amy M. Freeman*
- 7a. and 7b. Illustrations: Location of the Percutaneous Gastro/Jejunostomy
and Jejunostomy Feeding Tube *Saint Joseph Mercy Health System*

C. COMPLICATIONS

1. Problem Solving with Your Tube Feeding *Saint Joseph Mercy Health System*
2. Feeding Tube and Site Problems *Novartis Nutrition Corporation*

D. HOME ENTERAL NUTRITION

1. Tube Feeding Terms *Saint Joseph Mercy Health System*
2. Home Tube Feeding Daily Log *Amy M. Freeman*

E. FEEDING METHODS

1. Gravity/Bolus/Intermittent with a Syringe
 - a. Tube Feeding Using the Gravity Method
Memorial Sloan Kettering Cancer Center
 - b. Giving Your Feeding: The Gravity Drip Method
Saint Joseph Mercy Health System
 - c. Bolus/Intermittent Tube Feeding Instructions
Saint Joseph Mercy Health System
 - d. Giving your Feeding: The Syringe Method *Saint Joseph Mercy Health System*
 - e. Syringe Tube Feeding Instructions *Saint Joseph Mercy Health System*
 - f. Gravity or Intermittent Feeding *Novartis Nutrition Corporation*
 - g. How to Give a Gravity Feeding
Greater Los Angeles Veterans Administration Healthcare System
 - h. Enteral Nutrition Delivery Guidelines for Gastrostomy Tube and
Naso-gastric tube *Vanderbilt University Medical Center*
 - i. Tube Feeding Using the Bolus Method
Memorial Sloan-Kettering Cancer Center
 - j. Bolus or Syringe Feeding *Novartis Nutrition Corporation*
 - k. How to Give Bolus Tube Feedings
Greater Los Angeles Veterans Administration Healthcare System
2. Pump Feeding
 - a. Tube Feeding with a Pump *Memorial Sloan-Kettering Cancer Center*
 - b. Giving Your Feeding: The Pump Method
Saint Joseph Mercy Health System

Table of Contents, CONT.

- c. Continuous Tube Feeding Instruction *Saint Joseph Mercy Health System*
- d. Pump-Administered Feeding *Novartis Nutrition Corporation*
- e. Closed System Tube Feeding *Novartis Nutrition Corporation*
- f. How to Give Tube Feedings Using a Pump
Greater Los Angeles Veterans Administration Healthcare System
- g. Enteral Nutrition Delivery Guidelines for Naso-Jejunal, Gastro-Jejunal, and Jejunostomy Feeding Tube
Vanderbilt University Medical Center

F. MEDICATIONS

- 1. Taking Medicines *Memorial Sloan-Kettering Cancer Center*
- 2. Taking Medication Through Your Feeding Tube
Saint Joseph Mercy Health System
- 3. Taking Medications and Tube Flushing *Novartis Nutrition Corporation*
- 4. A Patient's Guide to Getting Medications Through a Feeding Tube
Eric Frankel and Mark Klang

G. CARE AND MAINTENANCE

- 1. Checking the Placement of Your Feeding Tube
Saint Joseph Mercy Health System
- 2. Residual Check *Saint Joseph Mercy Health System*
- 3. Formula Preparation and Storage *Saint Joseph Mercy Health System*
- 4. Care of the Skin Around the Tube Site *Saint Joseph Mercy Health System*
- 5. Skin Care with Nasal Tubes *Saint Joseph Mercy Health System*
- 6. Mouth Care *Saint Joseph Mercy Health System*
- 7. Mouth Care *Novartis Nutrition Corporation*
- 8. Preventing Infections *Novartis Nutrition Corporation*
- 9. Nasal Feeding Tube Site Care and Maintenance
Novartis Nutrition Corporation
- 10. Balloon and PEG Gastrostomy Tubes Checking Position
Novartis Nutrition Corporation
- 11. Checking, Cleaning, and Securing the Gastrostomy Tube
Novartis Nutrition Corporation

H. COPING

- 1. Realize That You Are Not Alone *Cheryl Thompson*
- 2. Knowledge is Empowering...Be Informed *Cheryl Thompson*
- 3. Communicate Effectively with Your Healthcare Provider
Cheryl Thompson
- 4. Master Home Enteral Nutrition (HEN) Skills *Cheryl Thompson*
- 5. Gain Control Over Your Healthcare *Cheryl Thompson*
- 6. Seek and Accept Support *Cheryl Thompson*
- 7. Seek Enjoyment at Meal Times *Cheryl Thompson*

I. COSTS — CMS/MEDICARE REIMBURSEMENT FORMS (See Part I.F 1 and 2)

Part III. Surgical Procedures

A. ORAL SURGERY

Liquid or Wired Jaw Diet *Vanderbilt University Medical Center*

B. GASTROINTESTINAL SURGERY

1. Gastrointestinal Tract Anatomy Illustration
2. Nutrition Guidelines After a Nissen Surgery *University of Virginia*
3. Post Gastrectomy Diets
 - a. Gastric Surgery Diet *Vanderbilt University Medical Center*
 - b. Post Gastrectomy Diet
 - 1) Post Gastrectomy Diet *Temple University*
 - 2) Dumping Syndrome *University of Virginia*
 - 3) Dumping Syndrome for After Gastrectomy *Martha Orabella*
4. Diet Guidelines After Large Colon Resection
Portland Adventist Medical Center
5. Diet Following an Ileostomy
 - a. Ileostomy Diet *Froedtert Memorial Lutheran Hospital*
 - b. Ostomy Diet *Vanderbilt University Medical Center*
6. Short Bowel Syndrome Diet
 - a. Nutrition for Short Bowel Syndrome (SBS)
Vanderbilt University Medical Center
 - b. Malabsorption Diet *The Ohio State University Medical Center*

C. LIVER TRANSPLANT

1. Nutrition While You Are Waiting for Your Transplant
Strong Memorial Hospital
2. Diabetes Education for Transplant Patients *Strong Memorial Hospital*

Part IV. Medical Conditions

A. GASTROINTESTINAL CONDITIONS

1. Heartburn, Gastroesophageal Reflux Disease *National Institutes of Health*
2. Gastroparesis Diet Tips *University of Virginia*
3. Nutrition for Chronic Pancreatitis *Beth Israel Deaconess Medical. Center*
4. Low Fat Nutrition Therapy *Amy M. Freeman*
5. Nutrition and Inflammatory Bowel Disease
 - a. Nutrition and Crohn's Disease
 - 1) Nutrition and Crohn's Disease *University of Virginia*
 - 2) Crohn's Disease *National Institutes of Health*
 - b. Nutrition and Ulcerative Colitis (UC) *University of Virginia*
6. Nutrition Considerations for the Patient with Irritable Bowel Syndrome (IBS) *University of Virginia*

Table of Contents, CONT.

B. DIETS TO PROMOTE WEIGHT GAIN AND MAXIMIZE PROTEIN INTAKE

1. High-Calorie/High-Protein Guidelines *Youville House*
2. How to Increase Calories *National Institutes of Health*
3. How to Increase Protein *National Institutes of Health*
4. Snack Ideas for Gaining Weight *University of Virginia*
5. Low Sodium Snack Ideas For Gaining Weight *University of Virginia*
6. High Calorie Liquid Diet *University of Virginia*

C. NUTRITION CONSIDERATIONS FOR PATIENTS WITH A CANCER DIAGNOSIS

1. General Nutritional Considerations with Cancer
National Institutes of Health
2. Preventing Food-Borne Illness *National Institutes of Health*
3. Nutrition and Symptom Management:
 - a. Loss of Appetite *National Institutes of Health*
 - b. Dry Mouth *National Institutes of Health*
 - c. Sore Mouth or Throat *National Institutes of Health*
 - d. Changed Sense of Taste or Smell *National Institutes of Health*
 - e. Nausea and Vomiting *National Institutes of Health*
 - f. Diarrhea *National Institutes of Health*
 - g. Constipation *National Institutes of Health*
 - h. Weight Gain *National Institutes of Health*

D. NUTRITION AND THE ELDERLY

1. Eating Well as We Age *US Dept. of Health and Human Services – FDA*
2. Good Nutrition: It's a Way of Life *National Institutes of Health*

Part V. Pediatrics

A. ASSESSMENT/ FEEDING/GENERAL NUTRITION CARE

1. Body Mass Index *Children's Mercy Hospital*
2. Diarrhea *Children's Mercy Hospital*
3. Feeding an Infant with Cleft Lip or Palate *Children's Mercy Hospital*
4. Fiber and Fluids *Children's Mercy Hospital*
5. Formula Preparation *Children's Mercy Hospital*
6. Increase Weight Gain *Children's Mercy Hospital*
7. Mouth Care for Oncology Patients *Children's Mercy Hospital*
8. Mouth Care *Novartis Nutrition Corporation*
9. Oral Rehydration Therapy *Children's Mercy Hospital*

B. ENTERAL

1. Why Nutrition Is Important *Novartis Nutrition Corporation*
2. The Digestive System *Novartis Nutrition Corporation*
3. Nasal Feeding Tube *Novartis Nutrition Corporation*

4. Nasogastric Feeding Tube Insertion *Children's Mercy Hospital*
5. Nasal Feeding Tube Site Care and Maintenance
Novartis Nutrition Corporation
6. Nasogastric Tube Feeding *Children's Mercy Hospital*
7. Percutaneous Endoscopic Gastrostomy Tube *Children's Mercy Hospital*
8. Gastrostomy Button *Children's Mercy Hospital*
9. Children and Feeding Tubes *Novartis Nutrition Corporation*
10. Gastrostomy Tube Feeding *Children's Mercy Hospital*
11. Gastrostomy Tube Removal *Children's Mercy Hospital*
12. Jejunostomy Tube Care *Children's Mercy Hospital*
13. Adjusting to Tube Feeding at Home *Novartis Nutrition Corporation*
14. Patient Progress Record *Novartis Nutrition Corporation*
15. Breastfeeding Your Sick Baby *Ginger Carney*
16. Aspiration, Nausea, and Vomiting *Novartis Nutrition Corporation*

C. PARENTERAL

1. TPN (Total Parenteral Nutrition) *St. Jude Children's Research Hospital*
2. Pediatric Peripherally Inserted Central Catheter (PICC) Line Insertion
California Pacific Medical Center
3. Hickman®/Broviac® Catheter Care *Children's Mercy Hospital*
4. Implanted Port *Children's Mercy Hospital*
5. Peripherally Inserted Central Catheter (PICC) *Children's Mercy Hospital*
6. Peripherally Inserted Central Catheter (PICC): Risks, Benefits, General
Information *Children's Mercy Hospital*
7. Midline Catheter *Children's Mercy Hospital*
8. Accessing a Port-a-Cath® *Children's Mercy Hospital*
9. Drawing Blood from a Hickman®/Broviac® Catheter
Children's Mercy Hospital

D. HOME PARENTERAL NUTRITION FOR PEDIATRIC PATIENTS

1. Handwashing, Supplies Storage, Sharps Disposal, Monitoring
(See Part I. Section D)
2. TPN at Home *St. Jude Children's Research Hospital*
3. Home Total Parenteral Nutrition *Children's Mercy Hospital*

Part VI. Spanish Language Patient Education Materials

A. GENERAL NUTRITION

1. Infant Feeding *Children's Mercy Hospital*
2. Maintaining Healthy Weight *Children's Mercy Hospital*
3. Oral Rehydration Therapy *Children's Mercy Hospital*
4. Oley Foundation *Oley Foundation*

Table of Contents, CONT.

B. ENTERAL GENERAL

1. What is Enteral? *A.S.P.E.N.*
2. Tube Feeding Made Easy *Jackson Health System*
3. Compat® Enteral Pump Care Card *Novartis Nutrition Corporation*
4. Management and Care of Gastrostomy Tubes
Rafael Barrera and Nestor Munoz
5. Instructions for Bolus or Syringe Feeding *Novartis Nutrition Corporation*
6. Instructions for Pump Administered Feeding *Novartis Nutrition Corporation*
7. Troubleshooting Problems with Feeding Tube *Novartis Nutrition Corporation*

C. HOME ENTERAL

1. Home Enteral Nutrition *Gilberto Hurtado and Marisol Juarez*

D. ENTERAL PEDIATRICS

1. Nasal Feeding Tube Care & Maintenance *Novartis Nutrition Corporation*
2. Gastrostomy Tube *Children's Mercy Hospital*
3. Gastrostomy Tube Feeding *Children's Mercy Hospital*
4. Button Gastrostomy Tube *Children's Mercy Hospital*
5. Percutaneous Endoscopic Gastrostomy *Children's Mercy Hospital*
6. Gastrostomy Tube Removal *Children's Mercy Hospital*
7. Jejunostomy Tube Care *Children's Mercy Hospital*
8. Adjusting to Home Enteral Nutrition *Novartis Nutrition Corporation*
9. Aspiration, Nausea, Vomiting *Novartis Nutrition Corporation*

E. PARENTERAL GENERAL

1. What is Parenteral Nutrition? *A.S.P.E.N.*
2. Parenteral Nutrition *Jennifer Ash, Lesly Jurado*
3. Famotidine Injection *MedFacts Patient Information*
4. Ranitidine Injection *MedFacts Patient Information*
5. Heparin *MedFacts Patient Information*
6. Insulin *MedFacts Patient Information*

F. PARENTERAL PEDIATRICS

1. Accessing a Port-a-Cath® *Children's Mercy Hospital*
2. Peripherally Inserted Central Catheter (PICC) *Children's Mercy Hospital*
3. Home Total Parenteral Nutrition *Children's Mercy Hospital*

Part VII. Patient Education Resources

A. TEACHING STRATEGIES FOR SPECIAL NEEDS *LK Guyer*

B. STRATEGIES FOR TEACHING OLDER ADULTS EFFECTIVELY
Sue McLaughlin

**C. TOOL FOR THE EVALUATION OF MATERIAL USED IN PATIENT
EDUCATION** *Laura H. Clayton*

**D. READABILITY LEVELS OF PATIENT EDUCATION MATERIALS
IN THIS MANUAL** *Laura H. Clayton*

Part VIII. Clinical Resources

A. ENTERAL AND PARENTERAL PUMP COMPANIES CONTACT INFO

B. NUTRITION SUPPORT ORGANIZATIONS

C. GENERAL NUTRITION ORGANIZATIONS

D. GASTROINTESTINAL DISORDERS ORGANIZATIONS

E. NUTRITION AND THE ELDERLY RESOURCES

F. NUTRITION AND CANCER RESOURCES

G. PHARMACY ORGANIZATIONS
