

Table of Contents

Executive Summary	1
Introduction	2
EN Overview	2
Objectives	3
Patients in the Healthcare System	3
Methodology	6
Data Sources: Big Data Sets	6
Data Sources: Large EN Studies in the Literature	10
Data Source: ASPEN Survey	10
Results	11
Segmentation by Healthcare Setting	11
Acute Care Hospitals	12
Acute Care Hospital Data from Big Data Sources	12
Acute Care Hospital Data from the Literature	16
Acute Care Hospital Data from ASPEN Survey	19
Analysis of the Acute Care Hospital Setting	19
Nursing Homes	20
Nursing Home Data from Big Data Sources	20
Nursing Home Data from the Literature	21
Nursing Home Data from the ASPEN Survey	22
Analysis of the Nursing Home Setting	22
Home Care	22
Home Care Data from Big Data Sources	23
Home Care Data from the Literature	24
Home Care Data from the ASPEN Survey	26
Analysis of the Home Care Setting	26
Long-Term Acute Care Hospitals (LTCH)	27
LTCH Data from Big Data Sources	27
LTCH Data from the Literature	28
LTCH Data from the ASPEN Survey	29
Analysis of the LTCH Setting	29
Inpatient Rehabilitation Facilities (IRF)	30
IRF Data from Big Data Sources	30
IRF Data from the Literature	31
IRF Data from the ASPEN Survey	31
Analysis of the IRF Setting	31

Segmentation by Product Type and Delivery Methods	32
Types of Feeding Tubes	32
Feeding Tube Types in Acute Care	32
Feeding Tube Types in Post-Acute Care	34
Analysis of Feeding Tubes	36
Types of Formula Administered	37
Types of Formulas Used Across Healthcare Settings	37
Use of Modular Components	40
Analysis of Formula Types	40
EN Delivery Methods	41
Open vs. Closed Delivery Systems	43
Water Flushes	44
Analysis of Administration Methods	44
Malnutrition and EN	45
Acute Care Hospitals	45
Post-acute Care	48
Market Drivers, Trends, and Challenges	50
Growing Awareness of the Role of Nutrition	50
Aging Population and Malnutrition Risk	51
Healthcare Delivery and Reimbursement Policies	52
Coverage Policies for EN	53
Greater Involvement in Self Care	57
EN Order Writing: Changes in Prescribers	58
Opportunity for Future Research	60
Conclusion	60
Appendices	61
Glossary of Abbreviations and Terms	61
References	65
Acknowledgements	70
Tables	71
Table A. Discharge Status for Hospital Discharges 2014	71
Table B. Prevalence of Clinical Measures in Nursing Home Residents By Age, by Percent, 2014	71
Table C. Health Care Settings, Enteral Nutrition Coverage and Payer Policies	72
Table D. EN Payer Mix per Healthcare Setting	73
Table E. ASPEN Clinical Practice Committee Enteral Nutrition Survey Instrument	73
Table F. ICD-9-CM Diagnosis Codes for Malnutrition Used in HCUP Data Analysis	78
