Session Objectives

Our educational objectives are to discuss the most recent research in the field of nutrition support. All our topics are knowledge based with the following objectives:

Gut Microbiome in the Critically Ill and Covid-19 Patient

1. Review gut microbiome in health
2. Review alterations of gut microbiome in critically ill and covid-19
3. Discussion on probiotics for critically ill and covid-19 patients

Making a Solution Out of Parenteral Nutrition Shortages

1. Identify reasons for drug shortages and explain why there has been a recent increase in their frequency
2. Develop a plan for how to mitigate parenteral nutrition (PN) ingredient shortages
3. Recognize safety risks associated with product changes in response to PN ingredient shortages

Navigating Medicare's Updated Home Parenteral and Enteral Nutrition Policies

1. Distinguish Medicare Parts A, B, C and D
2. Describe the guidelines for home parenteral (HPN) and home enteral nutrition (HEN) coverage through Medicare Part B
3. Evaluate the adequacy of documentation to meet coverage criteria under the Medicare nutrition policies
4. Identify alternative solutions when a patient does not meet Medicare Part B coverage criteria for nutrition
5. Apply Medicare's HPN and HEN policy to case studies

Promoting the Practice of Clinical Nutrition

1. Understand strategies to promote clinical practice in nutrition
2. Realize mistakes made in the past which hindered progress
3. Learn how Dietitians can help educate Physicians

Register Online:

Breakout Sessions

Objectives

Enteral Feeding Tubes: A Practical Hands-On Approach

1. Describe the differences between long term and short-term feeding tubes.
2. Recognize the difference in care and maintenance of nasoenteral tubes versus gastrostomy tubes
3. Identify proper positioning of enteral access devices
4. Understand prevention and troubleshooting potential problems of enteral access devices

Reframing Blended Tube Feeding: A Commonsense Approach

1. Evaluate research regarding blended tube feeding
2. Recognize the disconnect between clients and nutrition professionals
3. Compare the different nutrition recommendations between people with enteral tubes and oral eaters
4. Discuss practical ways to implement blended tube feeding

How to Interpret the Medical Literature

1. Learn the strength of different types of studies in the literature
2. Understand weaknesses in each type of study
3. Appreciate how strength of the literature fits in with evidence based medicine

Continuing Education

Dietitians-Prior approval for 6.5 hours of Continuing Professional Education Credits (CPEUs) has been submitted to the Commission of Dietetic Registration

Register Online:
