

ASPEN Rhoads Research Foundation
Awardee Accomplishments Related to Foundation Grants
Updated August 2021

*As experts on their funded research projects and the subsequent outcomes, grant outcomes are self-reported by the individual grant recipients.

Abbott Nutrition Research Grant

Awardee: Enid Martinez, MD

Grant Year: 2019, 2020

Grant Title: The role of gastrointestinal proteases and the protease-activated receptor-2 in gastric dysmotility in pediatric critical illness.

Publications:

1. Martinez EE, Zurakowski D, Pereira L, Emans J, Fasano A, Mehta NM. Interleukin-10 and zonulin are associated with delayed gastric emptying in pediatric surgical critical care patients. *JPEN J Parenter Enteral Nutr.* 2020; 44(8):1407-1416.
2. Manuscript in progress with the *Journal of Cellular and Molecular Gastroenterology and Hepatology*; pending acceptance and publication.

Abstracts:

1. Martinez EE, Zurakowski D, Pereira L, Emans J, Fasano A, Mehta NM. Interleukin-10 and zonulin are associated with delayed gastric emptying in pediatric surgical critical care patients. Abstracts. ASPEN Nutrition Science & Practice Conference: March 28–31, 2020, Tampa, Florida. Supporting information [jpen1813-sup-0001-SuppMat.pdf](#). pages 64-65. *JPEN J Parenter Enteral Nutr.* 2020 Feb;44(2):58-59.

Awardee: Lee-anne Chapple, PhD, MNutrDiet

Grant Year: 2018

Grant Title: Effects of Standard vs Energy-Dense Formulae on Gastric Retention, Energy Delivery, and Glycemia in Critically Ill Patients.

Publications:

1. Chapple LS, Summers MJ, Weinel LM, Abdelhamid YA, Kar P, Hatzinikolas S, Calnan D, Bills M, Lange K, Poole A, O'Connor SN, Horowitz M, Jones KL, Deane AM, Chapman MJ. Effects of Standard vs Energy-Dense Formulae on Gastric Retention, Energy Delivery, and Glycemia in Critically Ill Patients, *JPEN J Parenter Enteral Nutr.* 2021 Feb;45(4):710-719. DOI: 10.1002/jpen.2065

Abstracts:

1. Chapple LS, Summers MJ, Weinel LM, Abdelhamid YA, Kar P, Hatzinikolas S, Calnan D, Bills M, Lange K, Poole A, O'Connor SN, Horowitz M, Jones KL, Deane AM, Chapman MJ. Effects of Standard vs Energy-Dense Formulae on Gastric Retention, Energy Delivery, and Glycemia in Critically Ill Patients. Abstracts. ASPEN Nutrition Science & Practice Conference: March 28–31, 2020, Tampa, Florida. Supporting information jpen1813-sup-0001-SuppMat.pdf. pages 64-65. JPEN J Parenter Enteral Nutr. 2020 Feb;44(2):58-59.

Awardee: Jayshil Patel, MD

Grant Year: 2016 & 2017

Grant Title: Early Enteral Nutrition in Septic Shock

Publications:

1. Patel JJ, Rice T, Heyland DK. Safety and Outcomes of Early Enteral Nutrition in Circulatory Shock. JPEN J Parenter Enteral Nutr. 2020 Jul;44(5):779-784.
<https://doi.org/10.1002/jpen.1793>

Abstracts:

1. Jayshil Patel, MD. Early Enteral Nutrition in Septic Shock: A Randomized Controlled Pilot Study. (2019), ASPEN NUTRITION SCIENCE AND PRACTICE CONFERENCE: Phoenix, Arizona, March 23 – 26, 2019. Journal of Parenteral and Enteral Nutrition, 43: 445-445. doi:10.1002/jpen.1511.

Awardee: Adam Rahman, MD, DABIM, FRCPC

Grant Year: 2015

Grant Title: Phase II, multi-center, randomized control trial of beta-hydroxy-methyl-butyrate in improving physical muscle function in nutritionally at risk elderly patients.

Presentations:

1. Speaker, NUTRIC Protocol Development Meeting, Toronto, Ontario. Linking nutrition and rehabilitation in improving long-term outcomes for hospitalized patients. *Industry Sponsored: Baxter USA*
2. 01/15 Speaker, NUTRIC meeting at the American Society of Parenteral and Enteral Nutrition, Clinical Nutrition Week, Phase II randomized control of Beta-hydroxy-methyl-butyrate in at risk critically ill patients.
3. 05/15 Chair, Symposium, Linking nutrition to function in hospitalized and critically ill patients, Canadian Nutrition Society, Annual Meeting, Winnipeg, Manitoba
09/15 Speaker, Meaningful measures of function in ICU survivors. Body Composition Protocol Development Meeting, Waterloo, Ontario

Awardee: Elsa Bou Ghanem, PhD

Grant Years: 2013, 2014

Grant Title: Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection

Publications:

1. Bou Ghanem EN, Clark S, Du X, Wu D, Camilli A, Leong JM and Meydani SN (2015) The alpha-tocopherol form of vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection by modulating pulmonary neutrophil recruitment. J Immunol. 194(3): 1090-9*

*The study was featured by the press in Tufts Now; Dole Newsletter; MedIndia and Indo-Asian News Service

Abstracts:

1. Bou Ghanem E, Clark S, Du X, Wu D, Camilli A, Leong J, Meydani S. Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection by modulating the neutrophil response. *JPEN J Parenter Enteral Nutr.* 2014 Jan; 38(1). A.S.P.E.N. Clinical Nutrition Week, Savannah, GA, 2014.
2. Oral presentation; Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection (ASN's Nutrition, infection and immunity session at the Experimental Biology Conference, Boston, MA April 2013)
3. Poster presentation; Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection (Nutritional Immunology RIS trainee poster competition at the Experimental Biology Conference, Boston, MA April 2013)
4. Oral presentation; Vitamin E boosts resistance to *Streptococcus pneumoniae* infection in aged mice by inhibiting hepxilin A3-mediated neutrophil recruitment across the lung epithelium. (Experimental Biology Conference, San Diego, CA April 2014)
5. Abstract; The Impact of Age and Vitamin E Supplementation on *Streptococcus pneumoniae* Virulence (American Society for Microbiology 114th General Meeting, Boston, MA May 2014)*

*The abstract was among the few chosen to be featured in the ASM press room

Awardee: Kenneth Ng, DO

Grant Year: 2012

Grant Title: Role of phytosterols and FXR signaling in parenteral nutrition-associated liver disease

Publications:

1. Ng K, Stoll B, Chacko O, Saenz de Pipaon M, Lauridsen C, Gray M, Squires EJ, Marini J, Zamora IJ, Olutoye OO, Burrin DG. Vitamin E in New-generation Lipid Emulsions Protects against Parenteral Nutrition-associated Liver Disease in Parenteral Nutrition-fed Preterm Pigs. *JPEN J Parenter Enteral Nutr.* 2015 Jan 16. Pii: 0148607114567900.
2. Vlaardingerbroek H, Ng K, Stoll B, Benight N, Chacko S, Kluijtmans L, Kulik W, Squires E, Olutoye O, Schady D, Finegold M, van Goudoever J, Burrin D. New generation lipid emulsions prevent PNALD in chronic parenterally-fed preterm pigs. *J Lipid Research.* 2014 Mar;55(3):466-77.
3. Burrin, D., Ng, K., Stoll, B., and Sáenz de Pipaón, M. (2014). Impact of New Generation Lipid Emulsions on Cellular Mechanisms of Parenteral Nutrition-Associated Liver Disease. *Advances in Nutrition*, 4(6), 82-91.

Abstracts:

1. Kenneth Ng, Barbara Stoll, Douglas Burrin Vitamin E Added to Intralipid Positively Impacts Hepatic Bile Acid and Fatty Acid Homeostasis in TPN-fed Preterm Pigs. *JPEN J Parenter Enteral Nutr.* 2014 Jan; 38(1). A.S.P.E.N. Clinical Nutrition Week, Savannah, GA, 2014. Oral Presentation
2. Ng K, Stoll B, Burrin D. Intralipid with added vitamin E positively impacts bile acid homeostasis in TPN-fed preterm pigs. 2013 Digestive Disease Week. Poster of Distinction.

Awardee: Gail Cresci, PhD, RD, CNSD

Grant Years: 2010, 2011

Grant Title: Probiotics and the short-chain fatty acid butyrate: What is the mechanism in which these substrates prevent antibiotic associated diarrhea?

Publications:

1. Cresci G, Nagy L, Ganapathy, V. *Lactobacillus* GG and tributyrin supplementation reduce antibiotic-induced intestinal injury. *JPEN J Parenter Enteral Nutr.* 2013 Nov; 37(6):763-774.

Abstracts:

1. Cresci G, Nagy L. A probiotic and butyrate protect the intestine during antibiotic therapy. *JPEN J Parenter Enteral Nutr.* 2013 Feb; 37(1). A.S.P.E.N. Clinical Nutrition Week, Phoenix, AZ, 2013. 2013 Vars Candidate and Abstract of Distinction.

Awardee: Carrie Earthman, PhD, RD

Grant Years: 2005, 2006

Grant Title: Clinical implications of gastric bypass surgery

Publications:

1. Beckman LM, Earthman CP, Thomas W, Compher C, Muniz J, Horst R, Ikramuddin S, Kellogg T, Sibley SD. Serum 25(OH) vitamin D concentration changes after Roux-en-Y gastric bypass surgery. *Obesity.* 2013 Dec;21(12):E599-606.
2. Beckman LM, Beckman TR, Sibley SD, Thomas W, Ikramuddin S, Kellogg TA, Ghatei MA, Bloom SR, le Roux CW, Earthman CP. Changes in gastrointestinal hormones and leptin after Roux-en-Y gastric bypass surgery. *JPEN J Parenter Enteral Nutr.* 2011 Mar;35(2):169-80.
3. Levitt DG, Beckman LM, Mager JR, Valentine B, Sibley SD, Beckman TR, Kellogg TA, Ikramuddin S, Earthman CP. Comparison of DXA and water measurements of body fat following gastric bypass surgery and a physiological model of body water, fat, and muscle composition. *J Appl Physiol.* 2010 Sep;109(3):786-95.
4. Mager JR, Sibley SD, Beckman TR, Kellogg TA, Earthman CP. Multifrequency bioelectrical impedance analysis and bioimpedance spectroscopy for monitoring fluid and body cell mass changes after gastric bypass surgery. *Clin Nutr.* 2008 Dec;27(6):832-41.
5. Dobratz JR, Sibley SD, Beckman TR, Valentine BJ, Kellogg TA, Ikramuddin S, Earthman CP. Comparison of handheld to metabolic cart indirect calorimetry for resting energy expenditure assessment in extremely obese women. *Topics in Clinical Nutrition.* 2007;22(2):115-129.
6. Dobratz JR, Sibley SD, Beckman TR, Valentine BJ, Kellogg TA, Ikramuddin S, Earthman CP. Predicting energy expenditure in extremely obese women. *JPEN J Parenter Enteral Nutr.* 2007;31(3): 217-227.

Abstracts:

2. Beckman LM, Earthman CP. Changes in resting energy expenditure and body composition after Roux-en-Y gastric bypass. *JPEN J Parenter Enteral Nutr.* 2013;37(1):35-37. A.S.P.E.N. Clinical Nutrition Week, Phoenix, AZ, 2013. Oral Presentation.
3. Beckman LM, Sibley SD, Earthman CP. Subjective satiety improves early after gastric bypass surgery. *JPEN J Parenter Enteral Nutr.* 2012;36(1):A20-21. A.S.P.E.N. Clinical Nutrition Week, Orlando, FL, 2012. Oral Presentation.

4. Beckman LM, Sibley SD, Earthman CP. Quality of life using a validated obesity-specific questionnaire improves early after gastric bypass surgery. *JPEN J Parenter Enteral Nutr.* 2012; 36(1): A130-131. A.S.P.E.N. Clinical Nutrition Week, Orlando, FL, 2012.
5. Earthman CP, Sibley SD, Thomas W, Beckman LM, Mager JR, Beckman TR, Ikramuddin S, Kellogg TA, Weijs PJ, Kunkel SA. An evaluation of phase angle, impedance ratio, and bioimpedance vector for assessing body composition and clinical outcomes in gastric bypass patients. *Int J Obesity.* 2011;35(2):S58. The 9th International Symposium on *In Vivo* Body Composition Studies, Hangzhou, China, May 21-24, 2011.
6. Earthman CP, Kruiuzenga HM, Weijs PJM. Impedance ratio Z200/Z5 compared to phase angle at 50 kHz better predicts nutritional status and length of stay in hospitalized patients. *Int J Obesity.* 2011;35(2):S58. The 9th International Symposium on *In Vivo* Body Composition Studies, Hangzhou, China, May 21-24, 2011.
7. Earthman CP, Weijs PJM. Comparison of bioimpedance spectroscopy versus air displacement plethysmography for measurement of fat-free mass in healthy individuals. *Int J Obesity.* 2011;35(2):S59. *Poster Presentation.* The 9th International Symposium on *In Vivo* Body Composition Studies, Hangzhou, China, May 21-24, 2011.
8. Earthman CP, Sibley SD, Thomas W, Beckman LM, Mager JR, Bekcman TR, Ikramuddin S, Kellogg TA, Weijs PJ, Kunkel SA. Comparison of bioimpedance techniques with multiple dilution for assessment of fat free mass and water compartments following gastric bypass surgery. *Int J Obesity.* 2011;35(2):S25. *Oral Presentation.* The 9th International Symposium on *In Vivo* Body Composition Studies, Hangzhou, China, May 21-24, 2011.
9. Beckman LM, Thomas W, Sibley SD, Beckman TR, Mager JR, Kellogg TA, Ikramuddin S, Earthman CP. Protein supplementation in the early post-operative period following gastric bypass surgery. *JPEN J Parenter Enteral Nutr.* 2011;35(1)25-26. A.S.P.E.N. Clinical Nutrition Week, Vancouver, BC, Canada, 2011.
10. Beckman LM, Compher CW, Muniz J, Sibley S, Beckman TR, Mager JR, Ikramuddin S, Kellogg TA, Earthman CP. Serum 25-OH vitamin D improves after gastric bypass surgery. *JPEN J Parenter Enteral Nutr.* 2011;35(1)25. A.S.P.E.N. Clinical Nutrition Week, Vancouver, BC, Canada, 2011.
11. Beckman LM, Beckman TR, Sibley SD, Thomas W, Mager JR, Ikramuddin S, Kellogg TA, le Roux C, Bloom S, Ghatei M, Earthman CP. Contribution of changes in gastrointestinal hormones and leptin to weight loss after gastric bypass surgery. *Clin Nutr* 2010;5(S2):181. The 2010 European Society for Clinical Nutrition and Metabolism Annual Meeting, Nice, France.
12. Beckman LM, Compher C, Muniz J, Sibley SD, Beckman TR, Mager JR, Ikramuddin S, Kellogg TA, Earthman CP. Serum 25-OH vitamin D improves after gastric bypass surgery. The European Society for Clinical Nutrition and Metabolism, Nice, France, 2010.
13. Mager J, Sibley S, Beckman T, Kellogg T, Ikramuddin S, and Earthman C. An evaluation of the factors related to extracellular fluid expansion in extremely obese women and the role of the renin-angiotensin system. *Obesity* 2008;16(1): S272. The 2008 Obesity Society Annual Meeting, 2008, Phoenix, AZ.
14. Earthman CP, Sibley SD, Beckman TR, Kellogg TA, Ikramuddin S, and Dobratz JR. Early postoperative fluid changes measured by intravenous deuterium and bromide dilution in gastric bypass surgery patients. *Int J Body Comp Res* 2008;6(2):70. 8th International Symposium on *In Vivo* Body Composition Studies, 2008, New York, NY.
15. Earthman, CP, Valentine BJ, Sibley SD, Beckman TR, Kellogg TA, Ikramuddin S, and Dobratz JR. The use of an acrylic board to separate regions of interest during dual energy x-ray absorptiometry scanning in extremely obese women. *FASEB J* 2008; 22:1087.3. Experimental Biology 2008, San Diego, CA.
16. Dobratz JR, Sibley SD, Beckman TR, Lautenschlager LM, Kellogg TA, Ikramuddin S, and

- Earthman, CP. Fluid distribution changes after gastric bypass surgery. *FASEB J* 2008; 22:1090.6. Experimental Biology 2008, San Diego, CA.
17. Dobratz J, Sibley S, Beckman T, Valentine B, Kellogg T, Ikramuddin S, Earthman C. Accuracy of multifrequency bioelectrical impedance analysis and bioimpedance spectroscopy for monitoring fluid distribution changes in women after gastric bypass surgery. *JADA* 2007 Supplement 3; 107(8): A-29.
 18. Dobratz J, Sibley S, Beckman T, Kellogg T, Ikramuddin S, Earthman C. Validation of a hand-held indirect calorimeter to measure resting energy expenditure in obese women. *FASEB J* 2006; 20:A588. *Poster Presentation*. Experimental Biology '06.

Presentations:

1. "Vitamin D Deficiency after Bariatric Surgery: Implications and Considerations", 9th Annual Bariatric Education Days, The University of Minnesota Medical School, Bloomington, MN. June 2013
2. "Nutritional Concerns after Bariatric Surgery", Bariatric Surgery Session, XXVII Annual Meeting of the Colombian Association of Clinical Nutrition, Bogota, Colombia. April 2013
3. "Vitamin D Status Before and After Gastric Bypass Surgery: Implications and Considerations", Metabolic Surgery Session, XXVII Annual Meeting of the Colombian Association of Clinical Nutrition, Bogota, Colombia. April 2013
4. "Vitamin D Status Following Gastric Bypass Surgery", City-Wide Endocrine Conference, Department of Medicine – Endocrine Division, University of Minnesota-Twin Cities. February 2013
5. "Methodologic Considerations for Assessing Body Composition Changes After Gastric Bypass Surgery", Children's Hospital of Pennsylvania (CHOP) Pediatric Research Group, University of Pennsylvania, Philadelphia, PA. October 2012
6. "Bariatric Surgery: Nutritional Implications and Research Considerations", University of Pennsylvania School of Nursing, Obesity Seminar (Host: Dr. Charlene Compher), Philadelphia, PA. October 2012
7. "Body Composition and Vitamin D Status Following Gastric Bypass Surgery", Institute of Human Nutrition, University of Southampton, Southampton, England. June 2012
8. "Body Composition and Vitamin D Status Following Gastric Bypass Surgery", Section for Clinical Nutrition, Sahlgrenska, University of Gothenburg, Gothenburg, Sweden. June 2012
9. "Diminished Vitamin D Status in Obesity: Implications and Considerations in Gastric Bypass Surgery Patients", Focused Learning Session, Clinical Nutrition Week, Orlando, Florida. January 2012
10. "Diminished Vitamin D Status in Obesity: Implications and Considerations in Gastric Bypass Surgery Patients", American Society for Parenteral and Enteral Nutrition, Webinar. January 2012
11. "Body Composition Assessment in Gastric Bypass Surgery Patients: Clinical and Research Considerations". Research Seminar, Division of Human Nutrition, Wageningen University, Wageningen, The Netherlands. June 2011
12. "Comparison of Bioimpedance Techniques with Multiple Dilution for Assessment of Fat Free Mass and Water Compartments Following Gastric Bypass Surgery". The 9th International Symposium on *In Vivo* Body Composition Studies, Hangzhou, China, May 21-24, 2011.

13. "Diminished Vitamin D Status In Obesity: Implications and Considerations in Gastric Bypass Surgery Patients". Institute of Toxicology and Nutrition, School of Medicine, Zhejiang University, Hangzhou, China. May 2011
14. "Vitamin D Inadequacy in Obesity: Before and After Gastric Bypass Surgery". University of Rome – Tor Vergata, Department of Medicine and Surgery, Rome, Italy. February 2011
15. "Clinical and Nutritional Implications of Gastric Bypass Surgery", Department of Clinical Sciences, University of Kentucky, Lexington, KY February 2010
16. "Changes in Gastrointestinal Hormones and Leptin after Roux-en Y Gastric Bypass Surgery", (Lauren Beckman, Doctoral Student Presented twice, for the Harry M. Vars Award competition), Clinical Nutrition Week 2010, Las Vegas, NV February 2010
17. "Changes in Gastrointestinal Hormones After the Roux-en-Y Gastric Bypass Procedure: A Review", L Beckman (C Earthman', Journal of the American Dietetic Association Board of Editors annual meeting at FNCE, Denver, CO October 2009
18. "Early Postoperative Fluid Changes Measured by Intravenous Deuterium and Bromide Dilution in Gastric Bypass Surgery Patients", Presented at the 8th International Symposium on In-Vivo Body Composition Studies, Columbia University, July 9-12, 2008.
19. "Acute Effects of Whey-Derived Peptides on the Renin-Angiotensin System in Extremely Obese Women", University of Minnesota Dairy Center, Midwest Dairy Association Annual Meeting, St. Paul, MN. July 2007
20. "Methodologic Considerations for Monitoring Body Composition Changes after Gastric Bypass Surgery", City-Wide Endocrine Conference, Department of Medicine – Endocrine Division, University of Minnesota-Twin Cities. April 2007
21. "Whey Protein Supplementation for Nutritional Management After Gastric Bypass Surgery: Progress Report", University of Minnesota Dairy Center, Midwest Dairy Association Annual Meeting, St. Paul, MN. July 2006
22. "Whey Protein Supplementation for Nutritional Management After Gastric Bypass Surgery", University of Minnesota Dairy Center, Midwest Dairy Association Annual Meeting, St. Paul, MN. July 2005

Awardee: Bruce Grossie, PhD

Grant Years: 2003, 2004

Grant Title: Response of an inflammatory site to arginine modified parenteral nutrition

Abstracts:

1. Grossie B, Edwards J, Rogiers R, Hussein D. Temporal response of arginine but not nitric oxide in plasma and exudate of an inflammatory site for rats receiving parenteral nutrition with citrulline or ornithine substituted for arginine. A.S.P.E.N. Clinical Nutrition Week, Orlando, FL, 2005.

Awardee: James Scolapio, MD

Grant Year: 2001

Grant Title: Gastric secretory and motor transit responses in patients with short bowel syndrome

Publications:

1. Ferrone M, Scolapio JS. Teduglutide for the treatment of short bowel syndrome. *Ann Pharmacother.* 2006 Jun;40(6):1105-9. Review
2. Jeppesen PB, Sanguinetti EL, Buchman A, Howard L, Scolapio JS, Ziegler TR, Gregory J, Tappenden KA, Holst J, Mortensen PB. Teduglutide (ALX-0600), a dipeptidyl peptidase

IV resistant glucagon-like peptide 2 analogue, improves intestinal function in short bowel syndrome patients. *Gut*. 2005 Sep;54(9):1224-31.

Awardee: Kelly Tappenden, PhD, RD

Grant Years: 1999, 2000

Grant Title: Prevention of bowel ischemia with optimized nutrition

Publications:

1. Kles KA, Turner JR, Tappenden KA. 2001 Harry M. Vars Research Award. Enteral nutrients alter enterocyte function within an *in vitro* model similar to an acute *in vivo* rat model during hypoxia. *JPEN J Parenter Enteral Nutr*. 2002 Mar-Apr;26(2):71-6.
2. Tappenden KA. Provision of phosphorylatable substrate during hypoxia decreases jejunal barrier function. *Nutrition*. 2002 Feb;18(2):168-72.
3. Kles KA, Wallig MA, Tappenden KA. Luminal nutrients exacerbate intestinal hypoxia in the hypoperfused jejunum. *JPEN J Parenter Enteral Nutr*. 2001 Sep-Oct;25(5):246-53.

Baxter Grant for Parenteral Nutrition Research

Awardee: Jayshil J. Patel, MD

Grant Year: 2019

Grant Title: A Phase II Double Blind Randomized Controlled Trial of High Dose Vitamin B12 in Septic Shock.

Publications:

1. Patel JJ, Venegas-Borsellino C, Willoughby R, Freed JK. High-Dose Vitamin B12 in Vasodilatory Shock: A Narrative Review. *Nutr Clin Pract*. 2019;34(4):514-520.

Awardee: James Davison, PhD

Grant Year: 2018

Grant Title: Modulation of organ injury by *Faecalibacterium prausnitzii* in critical illness

Abstracts:

1. James Davison, PhD, *Modulation of organ injury by Faecalibacterium prausnitzii in critical illness*, 26th Annual Duke Anesthesiology Academic Evening, May 29, 2018.
2. Cassidy Grumbles, *Modulation of organ injury by Faecalibacterium prausnitzii in critical illness*, 6th Annual Duke BioCoRE Symposium, July 27, 2018.

Awardee: Gregory Guthrie, PhD

Grant Year: 2016, 2017

Grant Title: Synergy between phytosterols and inflammation to antagonize nuclear hormone receptor function in PNALD

Publications:

1. Guthrie, G., Tackett, B., Stoll, B., Martin, C., Olutoye, O. and Burrin, D. G. (2018), *Phytosterols Synergize With Endotoxin to Augment Inflammation in Kupffer Cells but Alone Have Limited Direct Effect on Hepatocytes*. *Journal of Parenteral and Enteral Nutrition*, 42: 37-48. doi:10.1177/0148607117722752

Abstracts:

1. *Phytosterols Synergize with Endotoxin to Augment Inflammation in Kupffer Cells but Alone Have Limited Direct Effect on Hepatocytes*, CNW2017 submission. Accepted for Vars Candidacy.
2. Guthrie G, Stoll B, Burrin D. S81 - Effect of Parenteral Nutrition on Liver Injury in a Model of Obstructive Cholestasis. Abstracts. ASPEN Nutrition Science & Practice Conference: March 28–31, 2020, Tampa, Florida. Supporting information jpen1813-sup-0001-SuppMat.pdf. pages 64-65. JPEN J Parenter Enteral Nutr. 2020 Feb;44(2):172-173.

Presentations:

1. “Phytosterols Synergize with Endotoxin to Augment Inflammation in Kupffer Cells but Alone Have Limited Direct Effect on Hepatocytes”, (Presented for Harry M. Vars Award competition) Clinical Nutrition Week 2017, Orlando, FL, February 2017
2. “Phytosterols have weak direct effect on hepatocyte expression but enhance Kupffer Cell activation by endotoxin”, (oral and poster presentation for Emerging Leader in Nutrition Science competition) Experimental Biology Conference, Chicago, Illinois, April 2017

Awardee: Ajay Jain, MD

Grant Year: 2014-2015

Grant Title: Novel Interventions modulating the FXR-FGF19 Axis and the TGR5-GLP Axis as Therapeutic Approaches for TPN Associated Pathologies.

Publications:

1. Ajay Kumar Jain, Joy X. Wen, Keith S. Blomenkamp, Sumit Arora, Timothy A. Blaufuss, Jonathan Rodrigues, John P. Long, Brent A. Neuschwander-Tetri, and Jeffery H. Teckman, Oleanolic Acid Improves Gut Atrophy Induced by Parenteral Nutrition; JPEN J Parenter Enteral Nutr, January 2016; vol. 40, 1: pp. 67-72., first published on April 28, 2015
2. Jain AK, Teckman JH. Controversies in the mechanism of Total Parenteral Nutrition induced pathology. Children. In Press. Jun 2015
3. Jain AK, Wen JX, Arora S, Blomenkamp KS, Rodrigues J, Blaufuss TA, Liou VD, Burrin DB, Long JP, Teckman JH. Validating hyperbilirubinemia and gut mucosal atrophy with a novel ultra-mobile ambulatory Total Parenteral Nutrition piglet model. Nutrition Research. 2015 Feb;35(2):169-74.
4. Jain AK, Teckman JH. Newly identified mechanisms of Total Parenteral Nutrition (TPN) related liver injury. Advances in Hepatology. Volume 2014, ID 621380, 7, 2014.

Abstracts:

1. Premier Paper Session, oral presentation, Vars candidate CNW2016. Preserved gut microbial diversity accompanies upregulation of TGR5 and hepatobiliary transporters in bile acid treated animals on Total Parenteral Nutrition (TPN). Ajay K. Jain, MD ; Abhineet Sharma, student ; Sumit Arora, student; Keith S. Blomenkamp, Research Asst ; Ik Jun, Student ; Robert Luong, Student ; David Westrich, student ; Asyush Mittal, student; John P. Long, PhD; Jeffrey Teckman, MD. JPEN J Parenter Enteral Nutr, Jan 2016; vol. 40, 1:pp. 115-144.
2. Sharma A, Ripa M, Blomenkamp KS, Jun IC, Teckman JH, Jain AK. Bile Acid Treatment of Total Parenteral Nutrition (TPN) infused animals induces divergence in gut microbial flora. (NASPGHAN, 2015)

3. Poster of Distinction: Wen JX, Arora S, Blomenkamp KS, Blaufuss TA, Teckman JH, Long JP, Jain AK. Glucagon-Like Peptides ameliorate Total Parenteral Nutrition associated gut atrophy. (Digestive Disease Week 2015)
4. Wen JX, Arora S, Blomenkamp KS, Blaufuss TA, Teckman JH, Long JP, Jain AK. Glucagon-Like Peptides ameliorate Total Parenteral Nutrition associated gut atrophy. (Digestive Disease Week 2015)
5. Premier Paper Session: Oral Presentation: Jain AK, Wen JX, Arora S, Blomenkamp KS, Blaufuss TA, Long JP, Teckman JH. Oleonic Acid improves gut atrophy induced by Total Parenteral Nutrition (TPN) (ASPEN Feb 2015)
6. Oral Platform Presentation: Jain AK, Wen JX, Arora S, Blomenkamp KS, Sharma A, Iqbal S, Rodrigues J, Liou V, Blaufuss TA, Long JP, Teckman JH. Total Parenteral Nutrition (TPN) causes gut mucosal atrophy and hyperbilirubinemia: We describe a novel ultra-mobile ambulatory model. (Oral Presentation, NASPGHAN 2014)
7. Jain AK, Blomenkamp KS, Rodrigues J, Blaufuss TA, Carl MA, Liou VD, Wen JX, Stoll B, Burrin DG, Long JP, Teckman, JH. Development and validation of a novel ultra-mobile ambulatory Total Parenteral Nutrition model. (Digestive Disease Week 2014)

Awardee: Matthew Lungren, MD

Grant Year: 2012

Grant Title: Bacteriophage antimicrobial-lock technique for *Staphylococcus aureus* venous parenteral nutrition catheter-related infection: an *in vivo* model evaluation

Publications:

1. Lungren MP, Paxton BE, Kankotia R, Falk I, Christensen D, Kim CY. Bacteriophage antimicrobial-lock technique for staphylococcus aureus central venous catheter-related infection: an in-vivo evaluation. *Journal of Vascular and Interventional Radiology*. 2013 Apr;24(4)S24.

Abstracts:

1. Lungren MP, Kankotia R, Paxton B, Falk I, Christensen D, Donlan R, Kim C. Bacteriophage for *Staphylococcus aureus* central venous catheter-related infection: an *in-vitro* and *in-vivo* model evaluation. *JPEN J Parenter Enteral Nutr*. 2014 Jan; 38(1). A.S.P.E.N. Clinical Nutrition Week, Savannah, GA, 2014.

Fresenius Kabi Parenteral Nutrition Research Grant

Awardee: Darla Shores, MD

Grant Year: 2016

Grant Title: Biomarkers of intestinal injury in infants

Abstracts:

1. Serum detection of ingested proteins in mice with necrotizing enterocolitis. CNW2017 submission.
2. Post-operative Feeding Guidelines for Infants at risk of intestinal Failure. CNW 2017 submission.

Awardee: Hongyu Xue, MD

Grant Years: 2013, 2014

Grant Title: Modulating cardiotoxicity and anti-cancer efficacy related to anthracycline

chemotherapy by glutamine and n-3 PUFAs

Publications:

1. Xue H, Ren W, Denkinger M, Schlotzer E, Wischmeyer PE. Nutrition modulation of cardiotoxicity and anticancer efficacy related to doxorubicin chemotherapy by glutamine and ω -3 polyunsaturated fatty acids. JPEN Journal Parent Enteral Nutr. 2015 Apr 17. pii: 0148607115581838

Abstracts:

1. Xue H, Ren W, Wischmeyer P. Nutritional modulation of cardiotoxicity and anti-cancer efficacy related to doxorubicin chemotherapy by glutamine and n-3 polyunsaturated fatty acids. A.S.P.E.N. Clinical Nutrition Week, Long Beach, CA, 2015. Vars Award Candidate.

Nestlé Nutrition Institute Maurice Shils Grant

Awardee: Fatemeh Ramezani, PhD

Grant Year: 2020

Grant Title: Can tributyrin supplementation protect intestinal health during recurrent Clostridium difficile colonization and antibiotic treatment?

Abstracts:

1. Ramezani F, Glueck B, Han Y, Cresci G. 753531 - Effect of a spore-forming probiotic supplement in protecting intestinal health during recurrent Clostridium difficile colonization in mice. Abstracts. ASPEN Nutrition Science & Practice Conference: March 28–31, 2020, Tampa, Florida. Supporting information jpen1813-sup-0001-SuppMat.pdf. pages 64-65. JPEN J Parenter Enteral Nutr. 2020 Feb;44(2):183-184.
2. Ramezani F, Shapiro D, Han Y, Cresci G. P115 - Can tributyrin supplementation protect intestinal health in amousemodel of antibiotic and Clostridium difficile exposure. Abstracts. ASPEN Nutrition Science & Practice Conference: March 20–23, 2021 (Virtual). JPEN J Parenter Enteral Nutr. 2021 Mar;45(S1):S187.

Awardee: Hannah Piper, MD

Grant Year: 2018

Grant Title: Targeted Probiotic Therapy to Improve the Gut Microbiota and Growth in Children with Short Bowel Syndrome.

Publications:

1. Piper HG, Coughlin LA, Hussain S, Nguyen V, Channabasappa N, Koh AY. The Impact of Lactobacillus Probiotics on the Gut Microbiota in Children With Short Bowel Syndrome. J Surg. Res. 2020 Mar; 251:112-118. <https://doi.org/10.1016/j.jss.2020.01.024>

Abstracts:

1. Hannah Piper, MD. Oral probiotics do not predictably change the intestinal microbiota in children with short bowel syndrome (2019), ASPEN NUTRITION SCIENCE AND PRACTICE CONFERENCE: Phoenix, Arizona, March 23 – 26, 2019. Journal of Parenteral and Enteral Nutrition, 43: 445-445. doi:10.1002/jpen.1511.

Awardee: Adam Kuchnia, MS, RD

Grant Year: 2016

Grant Title: Determination of protein requirements using a stable isotope multi-step feeding protocol and evaluation of an innovative ultrasound device and other bedside technologies for lean tissue assessment in individuals with head and neck cancer.

Abstracts:

1. Price K, Earthman C, Lighthart-Melis G, Ten Have G, Deutz N, Perteet-Jackson A, Mulasi U, Sibley S, Klein M, Kuchnia A. 945177 - Evaluation of a multi-step feeding protocol of stable isotope amino acid tracers to determine anabolic threshold and capacity inpatients with head and neck cancer on concurrent chemoradiation therapy. Abstracts. ASPEN Nutrition Science & Practice Conference: March 20–23, 2021 (Virtual). JPEN J Parenter Enteral Nutr. 2021 Mar;45(S1):S17-S19.

Awardee: Kate Walton, PhD

Grant Year: 2015

Grant Title: Towards therapeutic strategies to improve patient outcome with total parenteral nutrition: clues from cell signaling networks

Publications:

1. Walton KD, Freddo AM, Wang S, Gumucio DL: Generation of intestinal surface: an absorbing tale. *Development* 143(13): 2261-72, 2016. PM27381224/PMC4958325
2. Gurdziel K, Vogt KR, Walton KD, Schneider GK, Gumucio DL: Transcriptome of the inner circular smooth muscle of the developing mouse intestine: Evidence for regulation of visceral smooth muscle genes by the hedgehog target gene, cJun. *Dev Dyn* 245(5): 614-26, 2016. PM26930384/PMC4844863
3. Walton KD, Whidden M, Kolterud Å, Shoffner SK, Czerwinski MJ, Kushwaha J, Parmar
4. Chandhrasekhar D, Freddo AM, Schnell S, Gumucio DL: Villification in the mouse: Bmp signals control intestinal villus patterning. *Development* 143(3): 427-36, 2016. PM26721501/PMC4760312
5. Namit Kumar, Manasa Srivillibhuthur, Katherine D. Walton, Anbo Zhou, William J. Faller, Ansu O. Perekatt, Owen J. Sansom, Deborah L. Gumucio, Jinchuan Xing, Edward M. Bonder, Nan Gao, Michael P. Verzi: A YY1-dependent increase in aerobic metabolism is indispensable for intestinal organogenesis. *Development* (In press).

Publications in Preparation:

1. Katherine D. Walton, Deepa Chandhrasekhar, Deborah L. Gumucio: Vascular Connections to Mesenchymal Clusters Coordinate Intestinal Villus Morphogenesis. In preparation for submission to *PNAS* by the end of October, 2016.
2. Katherine D. Walton, Sha Wang, and Deborah L. Gumucio: Review: Early intestinal villus morphogenesis. *WIREs*, invited review for January 2017 submission.

Abstracts:

1. Katherine D. Walton, Deepa Chandhrasekhar, Daniel Teitelbaum, Deborah L. Gumucio: Poster of Distinction: Towards Therapeutic Strategies to Improve Patient Outcome with Total Parenteral Nutrition: Clues from Cell Signaling Networks, Clinical Nutrition Week 2016, Austin, TX, Journal of Parenteral & Enteral Nutrition, 2016.
2. Katherine D. Walton, Deepa Chandhrasekhar, Priya Dedhia, Jason R. Spence, and Deborah L. Gumucio: Vascular Development Drives Intestinal Villus Morphogenesis, UM Center for Gastrointestinal Research Retreat, Ann Arbor, MI, 2016.

4. Martino JL, Stapleton RD, Cahill N, Suratt BT, Heyland DK. Extreme obesity and outcomes in critically ill patients. *Am J Respir Crit Care Med* 2010;181:A1646.
5. Stapleton RD, Martin TR, Gundel SJ, Crowley JJ, Nathens AB, Watkins TR, Akhtar SR, Martin JM, Ruzinski JT, Caldwell E, Neff MJ. A phase II, randomized, double-blind, placebo-controlled, safety and efficacy study of fish oil (Eicosapentaenoic acid and docosahexanoic acid) on lung and systemic inflammation in patients with acute lung injury. *Am J Respir Crit Care Med* 2009;179:A2169.

6. Rice TW, Stapleton RD, Wheeler AP, Bernard GR, Hite RD. Early enteral intake is associated with improved outcomes in acute lung injury. *Am J Respir Crit Care Med* 2009;179:A5097.
7. Rice TW, Wheeler AP, Hite RD, Stapleton RD. Enteral intake and patient characteristics in ventilated acute lung injury (ALI) patients. *Critical Care Medicine* 2009;36(S12):A107.
8. Jones NE, Stapleton RD, McClave S, Dhaliwal R, Day A, Heyland DK. Does Increased Early Enteral Nutrition Adequacy Impact Clinical Outcomes in Critically Ill Patients? Results of an International Multicenter Observational Study. *JPEN: Journal Parenteral and Enteral Nutrition* 2009;33(2):198.
9. Stapleton RD, Dixon AE, Ware LB, Parsons PE, Suratt BT. Plasma IL-6 levels are lower in obese ARDS patients. *Am J Respir Crit Care Med* 2008;177:A275.

Presentations:

1. Speaker and co-chair, *Obesity in Critical Illness: Management, Outcomes, and Novel Pathophysiologic Concepts*, "Nutrition For The Obese Critically Ill Patient." American Thoracic Society 2013 International Conference, Philadelphia, PA, May 2013.
2. Speaker, *Pharmac nutrition in the Critically Ill: What the Most Current Evidence Shows*, "Zinc Supplementation in the Critically Ill: What Do We Know?" American Society for Parenteral and Enteral Nutrition, Clinical Nutrition Week 2013, Phoenix, AZ, February 2013.
3. Visiting Professor, University of Pennsylvania Perelman School of Medicine, Division of Pulmonary, Allergy, and Critical Care Medicine, "Omega-3 Fatty Acids for the Treatment of Acute Lung Injury." February 2011.
4. Speaker, *Pharmac nutrition in the ICU: Results of Recent Randomized Trials*, "Fish oils in acute lung injury: Results of a phase II RCT." and *Optimizing Enteral Nutrition in the ICU Setting*, "Optimal dose of macronutrients: Should we be satisfied with 50% nutrition adequacy?" American Society for Parenteral and Enteral Nutrition, Clinical Nutrition Week 2010, Las Vegas, NV, February 2010.
5. Moderator and Speaker, *Lifesaving Lipids: Therapy Your Patient Can't Live Without*, "Enteral Lipids in the ICU." Society of Critical Care Medicine Congress, Nashville, TN, February 2009.
6. Speaker, *Five RCTs and Editorial Comment and Therapeutic Frontiers in Acute Lung Injury*, American Thoracic Society 2009 International Conference, San Diego, CA. May 2009
7. Speaker, "Nutrition in the ICU", Northern New England Critical Care Conference, Stowe, VT, October 2009.
8. Speaker, "Nutrition Therapy in the ICU – Saving Lives Safely", Society of Critical Care Medicine, Chicago, IL, August 2008.

Further Funding:

1. NIH
2. University of Vermont/Fletcher Allen Health Care
3. American Heart Association
4. Canadian Institutes of Health
5. Center of Biomedical Research Excellence

Awardee: Julian Spallholz, PhD

Grant Year: 2005

Grant Title: Selenium dietary supplements in the mitigation of arsenicosis and associated skin cancers

Abstracts:

1. La Porte P, Zuberi M, Alauddin M, Ahmed S, Chowdhury W, Dhar D, Ullah A, Marshall C, Robertson D, Boylan M, Westfall P, Umbaugh S, Feldmann J, Tchounwou P, Varghsse P, Spallholz J. The Bangladesh Arsenic-Selenium Consortium. Arsenic and selenium in hair from ten geographic regions of Bangladesh. International Se Meeting, Madison, WI 2006.

Awardee: David Foster, PharmD

Grant Year: 2004

Grant Title: The effects of green tea polyphenols on intestinal hyperpermeability

Publications:

1. Foster DR, Sowinski KM, Chow HHS, Overholser BR. Limited sampling strategies to estimate exposure to the green tea polyphenol, epigallocatechin gallate, in fasting and fed conditions. *Therapeutic Drug Monitoring*. 2007;29:835-842.

Further Funding:

American College of Clinical Pharmacy

Awardee: Roland Dickerson, PharmD

Grant Year: 2002

Grant Title: Drug compatibility and stability in enteral nutrition

Publications:

1. Dickerson RN, Mason DL, Minard G, Croce MA, Brown RO. Evaluation of an artificial neural network to predict urea nitrogen appearance for critically ill multiple trauma patients. *JPEN J Parenter Enteral Nutr*. 2005 Nov-Dec;29(6): 429-435.
2. Dickerson RN, Tidwell AC, Minard G, Croce MA, Brown RO. Predicting total urinary nitrogen excretion from urinary urea nitrogen excretion in multiple trauma patients receiving specialized nutrition support. *Nutrition*. 2005 Mar;21(3):332-338.

Awardee: Alexander Dzakovic, MD

Grant Year: 2001

Grant Title: Protective effect of increased hepatic glutathione during TPN

Publications:

1. Dzakovic A, Kaviani A, Eshach-Adiv O, Perez-Atayde A, Ling PR, Yu M, Bistran B, Jaksic T. Trophic enteral nutrition increases hepatic glutathione and protects against peroxidative damage after exposure to endotoxin. *J Pediatr Surg*. 2003 Jun;38(6):844-7.

Abstracts:

1. Dzakovic A, Kaviani A, Eshach-Adiv O, Ling PR, Yu MY, Perez-Atayde A, Bistran B, Jaksic T "Trophic enteral nutrition increases hepatic glutathione and protects against peroxidative damage after endotoxin exposure" American Academy of Pediatrics, October 13-23, 2002, Boston, MA
2. Dzakovic A, Eshach-Adiv O, Ling PR, Yu MY, Perez-Atayde A, Bistran B, Jaksic T: "The effect of trophic enteral nutrition on hepatic glutathione concentration and the hepatic response to endotoxin exposure" A.S.P.E.N. Clinical Nutrition Week, February 23-27, 2002, San Diego, CA
3. Dzakovic A, Eshach-Adiv O, Ling PR, Yu MY, Perez-Atayde A, Bistran B, Jaksic T: "The effect of trophic enteral nutrition on hepatic glutathione concentration and the hepatic

response to endotoxin exposure" Society of University Surgeons, 63rd Annual Meeting, February 13-16, 2002 Honolulu, HI

Foundation Grants

ASPEN Rhoads Research Foundation Grant

Awardee: Hannah Piper, MD

Grant Year: 2017

Grant Title: Targeted Probiotic Therapy to Improve the Gut Microbiota and Growth in Children with Short Bowel Syndrome.

Publications:

1. Piper HG, Coughlin LA, Hussain S, Nguyen V, Channabasappa N, Koh AY. The impact of Lactobacillus probiotics on the gut microbiota in children with short bowel syndrome. *Journal of Surgical Research*. 2020; Mar 251: 112-118.
<https://doi.org/10.1016/j.jss.2020.01.024>

Abstracts:

1. Hannah Piper, MD. Oral probiotics do not predictably change the intestinal microbiota in children with short bowel syndrome (2019), ASPEN NUTRITION SCIENCE AND PRACTICE CONFERENCE: Phoenix, Arizona, March 23 – 26, 2019. *Journal of Parenteral and Enteral Nutrition*, 43: 445-445. doi:10.1002/jpen.1511.

C. Richard Fleming Grant

Awardee: Hassan Dashti,

Grant Year: 2019

Grant Title: Assessing circadian misalignment from overnight parenteral nutrition.

Abstracts:

1. Dashti H, Mogensen K, Quraishi S, Robinson M, Scheer F, Saxena R. S36 - Leveraging electronic health records for clinical nutrition research: a case study aimed at determining the contribution of overnight cycled parenteral nutrition on hyperglycemia. Abstracts. ASPEN Nutrition Science & Practice Conference: March 28–31, 2020, Tampa, Florida. Supporting information [jpen1813-sup-0001-SuppMat.pdf](#). pages 64-65. *JPEN J Parenter Enteral Nutr*. 2020 Feb;44(2):114-116.
2. Presentation at NUTRITION 2020 conference's "gene-diet interaction forum" describing how electronic health records could be leveraged to study complex diseases in the hospitalized patients (meeting may be cancelled due to COVID-19).

Awardee: Lisa Martin, PhD, RD, MSc

Grant Year: 2017

Grant Title: Diagnostic criteria for malnutrition in overweight and obese cancer patients

Publications:

1. Martin L, Gioulbasanis I, Senesse P, Baracos VE. Cancer-Associated Malnutrition and CT-Defined Sarcopenia and Myosteatosis Are Endemic in Overweight and Obese Patients. *JPEN J Parenter Enteral Nutr.* 2020 Feb;44(2):227-228. <https://doi.org/10.1002/jpen.1597>

Abstracts:

1. Martin L, Kubrak C, Laird B, Gagnon B, Chasen M, Baracos V. Contribution of reduced food intake to cancer associated weight loss: data from the International Cancer Cachexia Data Repository. 10th International Society on Sarcopenia, Cachexia, and Wasting Disorders Conference. Rome, Italy. December 2017

Awardee: Beth Lyman (Ashley Hayden)

Grant Year: 2015

Grant Title: Enteral Feeding Set Handling Techniques: A comparison of bacterial growth, time, labor, and material costs

Publications:

1. Lyman, B. *Enteral Feeding Set Handling Techniques: A Comparison of Bacterial Growth, Nursing Time, Labor, and Material Costs.* Published in *NCP* September 2016

Abstracts:

CNW16 abstract presented:

1. Enteral Feeding Set Handling Techniques: A Comparison of Bacterial Growth, Nursing Time, Labor and Material Costs. Published *JPEN ONLINE Supplement* January 2016.

Awardee: Michele Nicolo, MS, RD, CDE, CNSC

Grant Year: 2014

Grant Title: Clinical outcomes in critically ill patients associated with protein delivery

Publications:

1. Nicolo M, Heyland D, Chittams J, Sammarco T, Compher C. Clinical Outcomes Related to Protein Delivery in a Critically Ill Population A Multicenter, Multinational Observation Study. *JPEN Journal Parent Enteral Nutr.* 2015 Apr 21. doi:10.1177/0148607115583675

Abstracts:

1. Nicolo M. Clinical outcomes in critically ill patients associated with protein delivery. A.S.P.E.N. Clinical Nutrition Week, Long Beach, CA, 2015. Vars Award Candidate.

Allison Blackmer, PharmD, BCPS

Grant Year: 2012

Grant Title: Neurodevelopmental outcomes of pediatric patients treated with modified intravenous lipid emulsion for the treatment and/or prevention of parenteral nutrition associated liver disease

Publications:

1. Blackmer AB, Warschausky S, Siddiqui S, Welch K, Horn K, Wester A, Warschausky M, Teitelbaum DH. Preliminary findings of long-term neurodevelopmental outcomes of infants treated with intravenous fat emulsion reduction for the management of parenteral nutrition-associated cholestasis. *JPEN J Parenter Enteral Nutr.* 2014 Oct 7. DOI. 10.1177/0148607114551965.

Abstracts:

1. Blackmer AB, Warschausky S, Siddiqui S, Welch K, Horn K, Wester A, Warschausky M, Tietelbaum, D. Long-term neurodevelopmental outcomes of infants treated with intravenous fat emulsion reduction for the management of parenteral nutrition-associated cholestasis. *JPEN J Parenter Enteral Nutr.* 2014 Jan;38(1). A.S.P.E.N. Clinical Nutrition Week, Savannah, GA, 2014. CNW 2014 Vars Award Candidate.

Awardee: Yongjia Feng, PhD

Grant Year: 2011

Grant Title: Modulation of glucagon like peptide-2 and epidermal growth factor signaling in intestinal epithelial cell proliferation and apoptosis in a TPN mouse model

Publications:

1. Feng Y, Browner P, Teitelbaum DH. Effects on varying intravenous lipid emulsions on the small bowel epithelium in a mouse model of parenteral nutrition. *JPEN J Parenter Enteral Nutr.* 2013 Nov;37(6):775-86.
2. Feng Y, Ralls MW, Xiao W, Miyasaka E, Herman RS, Teitelbaum DH. Loss of enteral nutrition in a mouse model results in intestinal epithelial barrier dysfunction. *Ann NY Acad Sci.* 2012 Jul;1258:71-7.
3. Feng Y, Teitelbaum DH. Epidermal growth factor/TNF- α transactivation modulates epithelial cell proliferation and apoptosis in a mouse model of parenteral nutrition. *Am J Physiol Gastrointest Liver Physiol.* 2012 Jan 15;302(2):G236-49.

Abstracts:

1. Feng Y, Teitelbaum DH. Refeeding after TPN leads to a pro-inflammatory state within the intestinal mucosa. *JPEN J Parenter Enteral Nutr.* 2012;36(1). A.S.P.E.N. Clinical Nutrition Week, Orlando, FL, 2012 and Digestive Disease Week, San Diego, CA, 2012.
2. Feng Y, Teitelbaum DH. GLP-2 and EGF actions on epithelial cell growth: Demonstration of PI3K/p-Akt dependent and independent signaling pathways. Digestive Disease Week, San Diego, CA, 2012.
3. Feng Y, Teitelbaum DH. Epidermal growth factor and glucagon-like peptide-2 actions on the loss of intestinal epithelial cell proliferation in a total parenteral nutrition mouse model. *JPEN J Parenter Enteral Nutr.* 2011;35(1). A.S.P.E.N. Clinical Nutrition Week, Vancouver, BC, Canada, 2011 and Digestive Disease Week, Chicago, IL, 2011.

Awardee: Matthew C. Koopman, MD

Grant Year: 2009

Grant Title: What is the optimal time to administer GLP-2 in SBS?

Publications:

1. Koopmann MC, Chen X, Holst JJ, Ney DM. Sustained glucagon-like peptide-2 infusion is required for intestinal adaptation, and cessation reverses increased cellularity in rats with intestinal failure. *Am J Physiol Gastrointest Liver Physiol.* 2010 Dec;299(6):G1222-30.

Abstracts:

1. M.C. Koopmann, D.M. Ney, X. Chen, J.J. Holst Sustained Glucagon-like Peptide-2 Infusion is Required for Intestinal Adaptation and Cessation Reverses Increased Cellularity in Rats with Intestinal Failure. *JPEN J Parenter Enteral Nutr.* 2011;35(1). A.S.P.E.N. Clinical

Nutrition Week, Vancouver, BC, Canada, 2011

Awardee: Alisha Rovner, PhD

Grant Year: 2004

Grant Title: Bone health in children with sickle cell disease.

Publications:

1. Fung EB, Kawchak DA, Zemel BS, Rovner AJ, Ohene-Frempong K, Stallings VA. Markers of bone turnover are associated with growth and development in young subjects with sickle cell anemia. *Pediatr Blood Cancer*. 2008 Mar;50(3):620-3.

Awardee: Robert Chang, MD

Grant Year: 2003

Grant Title: Evaluation of serial enteroplasty: A novel bowel lengthening procedure

Publications:

1. Chang RW, Javid PJ, Oh JT, Andreoli S, Kim HB, Fauza D, Jaksic T. Serial transverse enteroplasty enhances intestinal function in a model of short bowel syndrome. *Ann Surg*. 2006 Feb;243(2):223-8.

Awardee: Jennifer Muir Bowers, PhD, RD

Grant Year: 2002

Grant Title: Cytokine response in malnutrition and severe fatigue related to coccidioidomycosis

Presentations:

1. Cytokine Response in Malnutrition and Severe Fatigue Related to Coccidioidomycosis. University of Arizona, Wanda Howell, PhD 2002.

Awardee: Rose Ann DiMaria-Ghalili, PhD, RN, CNSC, FASPEN

Grant Year: 2000

Grant Title: Comparison of weight changes in older and younger persons undergoing CABG surgery

Publications:

1. Heersink J, Brown C, DiMaria-Ghalili R, Locher JL. Undernutrition in hospitalized older adults: patterns and predictors, outcomes, and opportunities for intervention. *J Nutr for the Elderly*. 2010;29(1):4-41.

CONTROL ID: 2600934

TITLE: Does parenteral nutrition increase the risk of vascular catheter-related blood stream infection?
A systematic literature review.

Awardee: Allison Buti – Shapiro, PhD, MPH

Grant Year: 2014

Grant Title: Investigating the Mediating Roles of Sirtuin 1 and PPAR- γ in the Relationship between Maternal Dietary Niacin Intake and Infant Adiposity

Publications:

Accepted Feb 2016

1. Shapiro ALB, Kaar JL, Crume TL, Starling AP, Siega-Riz AM, Ringham B, Glueck D, Norris J, Barbour L, Friedman JE, Dabelea D. Maternal Diet Quality in Pregnancy and Neonatal Adiposity: The Healthy Start Study. *International Journal of Obesity*.

Submitted

2. Shapiro ALB, Ringham BM, Glueck DH, Norris JM, Barbour LA, Friedman JE, Dabelea D. Maternal dietary niacin intake during pregnancy is not associated with infant adiposity at birth: The Healthy Start Study. Submitted to the *Journal of Maternal and Child Health*.
3. Shapiro ALB, Boyle KE, Dabelea D, Patinkin Z, Glueck D, Barbour LA, Norris J, Friedman JE. Nicotinamide promotes adipogenesis in umbilical cord-derived mesenchymal stem cells and corresponds to neonatal adiposity: The Healthy Start BabyBUMP Project. Submitted to the *Journal of Nutrition*.

Abstracts:

Poster Presentations:

1. European Diabetes Epidemiology Group (April 2015). Maternal Diet Quality in Pregnancy Influences Neonatal Adiposity: The Healthy Start Study. Shapiro ALB, Kaar J, Crume T, Starling A, Ringham B, Glueck D, Siega-Riz AM, Dabelea D
2. Experimental Biology (March 2015). Maternal Diet Quality and Obesity in Pregnancy Jointly Influence Neonatal Adiposity: The Healthy Start Study. Shapiro ALB, Kaar J, Crume T, Starling A, Ringham B, Glueck D, Siega-Riz AM, Dabelea D

Oral Presentations:

3. American Diabetes Association 75th Scientific Sessions (June 2015). Nicotinamide promotes adipogenesis in umbilical cord-derived mesenchymal stem cells and corresponds to neonatal adiposity: The Healthy Start study Shapiro ALB, Boyle KE, Dabelea D, Patinkin Z, Glueck D, Barbour LA, Norris J, Friedman JE
