Abbott Nutrition Research Grant

Awardee: Adam Rahman, MD, DABIM, FRCPC
Grant Year: 2015
Grant Title: Phase II, multi-center, randomized control trial of beta-hydroxy-methyl-butyrate in improving physical muscle function in nutritionally at risk elderly patients.

Presentations:
2. 01/15 Speaker, NUTRIC meeting at the American Society of Parenteral and Enteral Nutrition, Clinical Nutrition Week, Phase II randomized control of Beta-hydroxy-methyl-butyrate in at risk critically ill patients.
3. 05/15 Chair, Symposium, Linking nutrition to function in hospitalized and critically ill patients, Canadian Nutrition Society, Annual Meeting, Winnipeg, Manitoba 09/15 Speaker, Meaningful measures of function in ICU survivors. Body Composition Protocol Development Meeting, Waterloo, Ontario

Awardee: Elsa Bou Ghanem, PhD
Grant Years: 2013, 2014
Grant Title: Vitamin E reverses age-associated susceptibility to Streptococcus pneumoniae lung infection

Publications:

*The study was featured by the press in Tufts Now; Dole Newsletter; MedIndia and Indo-Asian News Service

Abstracts:

2. Oral presentation; Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection (ASN’s Nutrition, infection and immunity session at the Experimental Biology Conference, Boston, MA April 2013)

3. Poster presentation; Vitamin E reverses age-associated susceptibility to *Streptococcus pneumoniae* lung infection (Nutritional Immunology RIS trainee poster competition at the Experimental Biology Conference, Boston, MA April 2013)

4. Oral presentation; Vitamin E boosts resistance to *Streptococcus pneumoniae* infection in aged mice by inhibiting hepxilin A3-mediated neutrophil recruitment across the lung epithelium. (Experimental Biology Conference, San Diego, CA April 2014)

5. Abstract; The Impact of Age and Vitamin E Supplementation on *Streptococcus pneumoniae* Virulence (American Society for Microbiology 114th General Meeting, Boston, MA May 2014)*

*The abstract was among the few chosen to be featured in the ASM press room

Awardee: Kenneth Ng, DO
Grant Year: 2012
Grant Title: Role of phytosterols and FXR signaling in parenteral nutrition-associated liver disease

**Publications:**

**Abstracts:**

2. Ng K, Stoll B, Burrin D. Intralipid with added vitamin E positively impacts bile acid homeostasis in TPN-fed preterm pigs. 2013 Digestive Disease Week. Poster of
Distinction.

**Awardee: Gail Cresci, PhD, RD, CNSD**
Grant Years: 2010, 2011
Grant Title: Probiotics and the short-chain fatty acid butyrate: What is the mechanism in which these substrates prevent antibiotic associated diarrhea?

**Publications:**

**Abstracts:**

**Awardee: Carrie Earthman, PhD, RD**
Grant Years: 2005, 2006
Grant Title: Clinical implications of gastric bypass surgery

**Publications:**

Abstracts:

**Presentations:**
1. “Vitamin D Deficiency after Bariatric Surgery: Implications and Considerations”, 9th Annual Bariatric Education Days, The University of Minnesota Medical School, Bloomington, MN. June 2013

4. “Vitamin D Status Following Gastric Bypass Surgery”, City-Wide Endocrine Conference, Department of Medicine – Endocrine Division, University of Minnesota-Twin Cities. February 2013

8. “Body Composition and Vitamin D Status Following Gastric Bypass Surgery”, Section for Clinical Nutrition, Sahlgrenska, University of Gothenburg, Gothenburg, Sweden. June 2012

13. “Diminished Vitamin D Status In Obesity: Implications and Considerations in Gastric Bypass Surgery Patients”. Institute of Toxicology and Nutrition, School of Medicine, Zhejiang University, Hangzhou, China. May 2011

14. “Vitamin D Inadequacy in Obesity: Before and After Gastric Bypass Surgery”. University of Rome – Tor Vergata, Department of Medicine and Surgery, Rome, Italy. February 2011

15. “Clinical and Nutritional Implications of Gastric Bypass Surgery”, Department of Clinical Sciences, University of Kentucky, Lexington, KY February 2010
16. “Changes in Gastrointestinal Hormones and Leptin after Roux-en Y Gastric Bypass Surgery”, (Lauren Beckman, Doctoral Student Presented twice, for the Harry M. Vars Award competition), Clinical Nutrition Week 2010, Las Vegas, NV February 2010

20. “Methodologic Considerations for Monitoring Body Composition Changes after Gastric Bypass Surgery”, City-Wide Endocrine Conference, Department of Medicine – Endocrine Division, University of Minnesota-Twin Cities. April 2007

Awardee: Bruce Grossie, PhD
Grant Years: 2003, 2004
Grant Title: Response of an inflammatory site to arginine modified parenteral nutrition

Abstracts:

Awardee: James Scolapio, MD
Grant Year: 2001
Grant Title: Gastric secretory and motor transit responses in patients with short bowel syndrome

Publications:

Awardee: Kelly Tappenden, PhD, RD
Grant Years: 1999, 2000
Grant Title: Prevention of bowel ischemia with optimized nutrition

Publications:

Baxter Grant for Parenteral Nutrition Research

James Davison, PhD
Grant Year: 2018
Grant Title: Modulation of organ injury by Faecalibacterium prausnitzii in critical illness

Abstracts

Gregory Guthrie, PhD
Grant Year: 2016, 2017
Grant Title: Synergy between phytosterols and inflammation to antagonize nuclear hormone receptor function in PNALD

Publications:
1. Gregory Guthrie. Phytosterols Synergize with Endotoxin to Augment Inflammation in Kupffer Cells but Alone Have Limited Direct Effect on Hepatocytes. Accepted by JPEN for publication in an upcoming issue. Pending acceptance.

Abstracts
1. Phytosterols Synergize with Endotoxin to Augment Inflammation in Kupffer Cells but Alone Have Limited Direct Effect on Hepatocytes, CNW2017 submission. Accepted for Vars Candidacy.
Presentations:

2. “Phytosterols have weak direct effect on hepatocyte expression but enhance Kupffer Cell activation by endotoxin”, (oral and poster presentation for Emerging Leader in Nutrition Science competition) Experimental Biology Conference, Chicago, Illinois, April 2017

Awardee: Ajay Jain, MD
Grant Year: 2014-2015
Grant Title: Novel Interventions modulating the FXR-FGF19 Axis and the TGR5-GLP Axis as Therapeutic Approaches for TPN Associated Pathologies.

Publications:

Abstracts:
1. Premier Paper Session, oral presentation, Vars candidate CNW2016. Preserved gut microbial diversity accompanies upregulation of TGR5 and hepatobiliary transporters in bile acid treated animals on Total Parenteral Nutrition (TPN). Ajay K. Jain, MD; Abhineet Sharma, student; Sumit Arora, student; Keith S. Blomenkamp, Research Asst; Ik Jun, Student; Robert Luong, Student; David Westrich, student ;Asyush Mittal, student; John P. Long, PhD; Jeffrey Teckman, MD. JPEN J Parenter Enteral Nutr, Jan 2016; vol. 40, 1:pp. 115-144.

**Awardee: Matthew Lungren, MD**
Grant Year: 2012
Grant Title: Bacteriophage antimicrobial-lock technique for *Staphylococcus aureus* venous parenteral nutrition catheter-related infection: an *in vivo* model evaluation

**Publications:**

**Abstracts:**

---

**Fresenius Kabi Parenteral Nutrition Research Grant**

**Awardee: Darla Shores, MD**
Grant Year: 2016
Grant Title: Biomarkers of intestinal injury in infants

**Abstracts:**
1. Serum detection of ingested proteins in mice with necrotizing enterocolitis. CNW2017 submission.
2. Post-operative Feeding Guidelines for Infants at risk of intestinal Failure. CNW 2017 submission.

**Awardee: Hongyu Xue, MD**
Grant Years: 2013, 2014
Grant Title: Modulating cardiotoxicity and anti-cancer efficacy related to anthracycline chemotherapy by glutamine and n-3 PUFAs
Publications:

Abstracts:

Nestlé Nutrition Institute Maurice Shils Grant

Awardee: Kate Walton, PhD
Grant Year: 2015
Grant Title: Towards therapeutic strategies to improve patient outcome with total parenteral nutrition: clues from cell signaling networks

Publications:
Abstracts:

Awardee: Crystal Levesque, PhD
Grant Years: 2013, 2014
Grant Title: A pilot study of systemic glucagon-like peptide combined with oral epidermal growth factor and characterization of gut microbiome in short bowel piglets with and without ileum

Publications:

Abstracts:

Awardee: Joseph Boullata, PharmD, BCNSP
Grant Years: 2011, 2012
Grant Title: Drug compatibility and stability in enteral nutrition

Publications:

Abstracts:

Nutrition Week, Phoenix, AZ, 2013.

**Awardee: Diana Mager, PhD, RD**

Grant Years: 2009, 2010  
Grant Title: Altered postprandial lipid metabolism as a mediator to hepatic steatosis in overweight and obese children with non-alcoholic steatosis (NASH)

**Publications:**

**Abstracts:**

1. Mager DR, Mazurak, V, Proctor, S, Gilmour S, Yap J. Dietary intake may influence essential fatty acid and long chain polyunsaturated fatty acid expression in children with nonalcoholic fatty liver disease (NAFLD). AASLD Meeting, Washington DC. *Hepatology* 2013 58:817A.

**Presentations:**

3. Invited Speaker: Childhood NAFLD in Canada. School of Public Health, Xinjiang Medical University, Xinjiang Autonomous Region, People’s Republic of China, June 2010.

**Further Funding**
1. Alberta Diabetes Institute
2. Canadian Liver Foundation
3. Canadian Institutes of Health Research

---

**Maurice Shils Grant**
Jointly sponsored by Baxter Healthcare and Nestlé Nutrition Prior to 2010

**Awardee: Barbara Stoll, PhD**
Grant Years: 2007, 2008
Grant Title: Parenteral nutrition and hepatic insulin resistance in neonatal pigs

**Publications:**

**Abstracts:**

Awardee: Catherine Crill, PharmD
Grant Year: 2005
Grant Title: Effect of parenteral nutrition light exposure on urinary markers of oxidative stress in preterm infants

Abstracts:

Awardee: Steven Steiner, MD
Grant Year: 2005
Grant Title: Metabolic response to Infliximad in pediatric ulcerative colitis

Publications:

Abstracts:

Awardee: Hua Yang, MD, PhD
Grant Year: 2004
Grant Title: IL-7 modulation of intraepithelial lymphocytes with TPN

Publications:

5. Yang H, Spencer AU, Teitelbaum DH. Interleukin-7 administration alters intestinal intraepithelial lymphocyte phenotype and function in vivo. *Cytokine.* 2005 Sep
Awardee: Paul Wischmeyer, MD
Grant Year: 2002
Grant Title: Effect of glutamine administration to the intact rat on myocardial ischemia and reperfusion injury

Publications:

Awardee: N. Joseph Espat, MD
Grant Years: 2000, 2001
Grant Title: Proposal to investigate anti-inflammatory therapies (Omega-3 fatty acids and cyclo-oxygenase II inhibitors in the treatment of cancer-associated cachexia

Publications:

Awardee: Deborah Swartz-Basile, PhD
Grant Years: 1998, 1999
Grant Title: Retinoid modulation of intestinal epithelial adaptation

Publications:

**Awardee: Malcolm Robinson, MD**  
Grant Years: 1996, 1997  
Grant Title: Sepsis, malnutrition and liver dysfunction  

**Publications:**  

**Awardee: W. Scott Helton, MD**  
Grant Years: 1994, 1995  
Grant Title: Nutritional modulation of macrophage function  

**Publications:**  

**Abstracts:**  

**Presentations:**  

5. Frontiers in Antioxidant Research, Co-Chair, A.S.P.E.N. Research Workshop, January 18, 1998, Orlando Florida

Further Funding
1. CNRU, University of Washington
2. NIH R-13, R-29, R03
3. University of Illinois
4. Ross Labs
5. American Cancer Society

Norman Yoshimura Grant by B. Braun and the Aesculap Academy
**Awardee: Kenneth Christopher, MD**
Grant Year: 2015
Grant Title: Nutritional metabolome in critical illness

*Publications:*

*Abstracts:*

1. Premier Paper Session, CNW16, Austin Texas. Oral presentation: Plasma Metabolome Alteration in Critical Illness According to Nutrition Status: a Cohort Study. Kris Mogensen, MS, RD, LDN, CNSC; Jessica Lasky-Su, PhD; Angela Rogers, MD; Rebecca Baron, MD; Laura Fredenburg, MD; James Rawn, MD; Malcolm Robinson, MD; Anthony Massaro, MD; Augustine Choi, MD; Kenneth Christopher, MD. *JPEN J Parenter Enteral Nutr, January 2014; vol. 38, 1: pp. 124-149.*

**Awardee: Christy Lawson, MD**
Grant Years: 2012, 2013
Grant Title: Cross-talk between insulin and angiotensin in burn trauma

*Abstracts:*

**Awardee: Gerdien Ligthart-Melis, PhD**
Grant Years: 2009, 2010
Grant Title: The contribution of glutamine to citrulline and arginine synthesis, when alanyl-glutamine is supplied in an enteral dose of 0.5g/kg, in critically ill patients

*Abstracts:*

**Awardee: Renee Stapleton, MD**
Grant Year: 2006
Grant Title: Anti-inflammatory effects of enteral n-3 fatty acids in patients with acute lung injury
Publications:

Abstracts:

**Presentations:**

3. Visiting Professor, University of Pennsylvania Perelman School of Medicine, Division of Pulmonary, Allergy, and Critical Care Medicine, “Omega-3 Fatty Acids for the Treatment of Acute Lung Injury.” February 2011.

**Further Funding**

1. NIH
2. University of Vermont/Fletcher Allen Health Care
3. American Heart Association
4. Canadian Institutes of Health
5. Center of Biomedical Research Excellence

Awardee: Julian Spallholz, PhD
Grant Year: 2005
Grant Title: Selenium dietary supplements in the mitigation of arsenicosis and associated skin cancers

Abstracts:

Awardee: David Foster, PharmD
Grant Year: 2004
Grant Title: The effects of green tea polyphenols on intestinal hyperpermeability

Publications:
1. Foster DR, Sowinski KM, Chow HHS, Overholser BR. Limited sampling strategies to estimate exposure to the green tea polyphenol, epigallocatechin gallate, in fasting and fed conditions. Therapeutic Drug Monitoring. 2007;29:835-842.

Further Funding
American College of Clinical Pharmacy

Awardee: Roland Dickerson, PharmD
Grant Year: 2002
Grant Title: Drug compatibility and stability in enteral nutrition

Publications:

Awardee: Alexander Dzakovic, MD
