Re: ByHeart Whole Infant Formula Product Availability

Dear Healthcare Professionals:

We would like to ensure you have the information you need to advise parents and caregivers during the ongoing infant formula shortage.

To facilitate access to the ByHeart Whole Nutrition Formula we have created a waitlist to allow parents and caregivers that have not previously ordered the ByHeart formula to be notified as ByHeart formula becomes available. The waitlist is available on the ByHeart website via [Whole Nutrition Infant Formula \(byheart.com\)](https://www.byheart.com/whole-nutrition-infant-formula). We recommend that parents and caregivers enroll in the wait list immediately.

Information for medical professionals is available at [Medical Professionals \(byheart.com\)](https://www.byheart.com/medical-professionals)

Please contact me at [devon@byheart.com](mailto:devon@byheart.com) if I can provide additional resources or further information.

Sincerely,

A handwritten signature in black ink, appearing to read "DK", with a long horizontal line extending to the right.
