Dear Valued Customer,

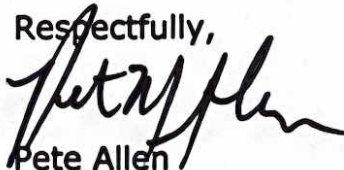

The global health care supply chain continues to be challenged due to COVID-19. As a result, we continue to experience intermittent supply interruptions for SMOFlipid that will continue through Q2 2022. Based on current projections we anticipate more stability on the 100ml and 500ml bag sizes.

Our team is working diligently to release product as soon as possible and will be prioritizing critical orders as received. We remain optimistic that all SMOFlipid supply challenges will be resolved by early fall, however demand remains unpredictable.

We sincerely apologize for this inconvenience and truly appreciate your patience as we work through this challenging time. If you have any further questions, please feel free to reach out to your local PN Sales Specialist.
