July 14, 2023

Dear Valued Customer,

Fresenius Kabi is currently experiencing disruptions to the Omegaven® supply. We understand the criticality of Omegaven in nutrition care of the tiniest patients and are doing everything possible to work on a resolution to this disruption.

- Omegaven 50ml vial is currently on backorder. We estimate a backorder until mid-October due to a production delay. There is a limited amount of safety stock available for emergent requests.
- Omegaven 100ml vial is currently on backorder. We anticipate releases starting next week. However, based on the growing demand we anticipate intermittent backorders through September. There is a limited amount of safety stock available for emergent requests.

Product Description	Product Code	National Drug Code (NDC)
Omegaven (fish oil triglyceride), 50ml	255050	63323-205-50
Omegaven (fish oil triglyceride), 100ml	255100	63323-205-00

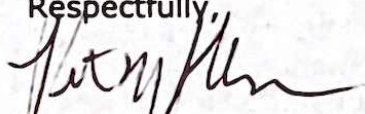

We will continue to prioritize critical orders and remain optimistic that all Omegaven supply challenges will be resolved by fall, however please keep in mind that demand remains unpredictable.

We sincerely apologize for this inconvenience and truly appreciate your patience as we work through this challenge to get Omegaven stocked to normal levels. If you have any further questions, please feel free to reach out to your local PN Sales Specialist.

If SMOFlipid is an alternative for your patients we do have supply available.

Product Description	Product Code	National Drug Code (NDC)
SMOFlipid 20%, 100ml	830307310	63323-820-00
SMOFlipid 20%, 250ml	830570310	63323-820-74
SMOFlipid 20%, 500ml	830820310	63323-820-50
SMOFlipid 20%, 1000ml	830920310	63323-820-10

Respectfully,

Pete Allen
