- Artificial Nutrition
- Support for Hydration at End of Life
- Palliative Treatment of Dysphagia
- Fatigue in Hospice Cancer patients
- Constipation
- Taste Alteration
- Olfactory in Hospice Patients
- Withholding Nutritional Support in European Countries

Cancer

- Cachexia Related Suffering
- GI Side Effects in Tumor Therapy
• Upper GI symptoms
• Palliative Surgery for Head and Neck Cancer
• Total Parenteral Nutrition
• Vitamin Deficiency
• Appetite and Nausea
• Palliative Gastrojejunostomy

Non-Cancer Conditions
• Nutritional Support in the Vegetative State
• Appetite Regulation in Renal Failure
• Nutrition in End Stage Liver Disease
• Motor Disease
• Nutritional Therapy in Amyotrophic Lateral Sclerosis

Pharmacological Aspects
• Cannabinoids
• Steroids
• Stimulants in CF
• Nutrition and Warfarin Interaction

Case Studies and Resources
• Malnutrition in Esophageal Cancer
• Nutrition in Advanced Dementia
• Pain Control in Palliative Care
• Research and Resources
