

ASPEN Rhoads Research Foundation Grant Application Instructions

Introduction

The Foundation is named in honor of Jonathan Rhoads, M.D., for his outstanding and renowned contributions to science in the fields of clinical nutrition, nutrition support, and surgery. Through its regular granting cycle, the Foundation funds exceptional scientific research projects submitted by early-career investigators of clinical nutrition and metabolic support in alignment with the priorities outlined in the [ASPEN Research Agenda](#).

Future research should include both basic science-oriented investigations aimed at improving our understanding of the science of nutrient regulation in different disease states, as well as clinical and translational research to determine how the practice of nutrition support can continue to be refined and individualized to optimize clinical outcomes.

Grants

The Foundation will offer grants in the following amounts:

- \$50,000 - Non-Renewable
- \$25,000 (annually) - May be renewable for one year.
- \$10,000 (annually) - Non-Renewable

The Foundation would like to thank the supporters that make grant funding possible:

- Abbott Nutrition
- Baxter Healthcare
- B Braun Medical, Inc. and the Aesculap Academy which funds the Norman Yoshimura Grant
- Nestlé Nutrition Institute which funds the Maurice Shils Grant
- Individual Foundation Donors which fund the ASPEN Rhoads Research Foundation Grants, C. Richard Fleming Grant, and Daniel H. Teitelbaum Grant

Multiple submissions will *only* be accepted if the research projects are different. If an applicant submits more than one project, funding will be limited to a maximum of one award.

Eligibility

The Foundation will give preference to individuals who are active in developing a career in nutrition research.

Early Career

Applicants to the ASPEN Rhoads Research Foundation must be Early Career Investigators. The definition of Early Career Investigator is modeled after [NIH's guidelines for New Investigators](#). The Foundation's requirements are listed below.

For an applicant to be considered an Early Career Investigator and be eligible for a Foundation grant, he/she must;

- be within 10 years of completing a terminal research degree, medical residency, or end of post-graduate clinical training (or the equivalent). Applicants who are still in training (e.g., in graduate school [Masters, PharmD, PhD, etc.], post-doctoral training, fellowship) are also eligible to apply.
- be at or below the rank of Assistant Professor or at the rank of Associate Professor for < 2 years
- commit at least 20% of their time to research in a professional institute that conducts nutrition research.

Individuals outside the United States are eligible to apply for Foundation grants

The Foundation Board of Directors recognizes that there may be extenuating circumstances in which an individual may have completed their terminal degree greater than ten years ago, however is just beginning an active nutrition research career. Individuals in this category must submit a letter to request approval to apply for a Foundation grant along with a copy of a current CV no later than May 1st of the grant deadline year to saraf@nutritioncare.org. Requests will be reviewed by the Foundation's Grant Review Committee and the individual will be notified as to whether or not approval to submit a grant application is granted.

Smaller Grants (\$10K or under)

The smaller grants may be most useful to support data collection and analysis for small projects including those that are part of a Masters, PharmD, or PhD program, or to support preliminary data accrual for a new line of investigation. This funding amount would be most beneficial for those who seek to fund smaller projects and who may not have other options for funding.

Corporate

Corporate employees are eligible to receive grants if the research project is not part of their normal duties and they have at least a part-time academic appointment or are associated with a professional institute that conducts nutrition research. Early-career criteria apply.

ASPEN Membership

ASPEN membership is required prior to submission of the grant application. If you are not a member, go to <http://www.nutritioncare.org/membership/>, and join. Contact Sara Fleming, Manager of Research Programs with any questions regarding eligibility at 301-920-9152 or email saraf@nutritioncare.org.

Topics

The Foundation is seeking applications that support topics and research initiatives described in [ASPEN's Research Agenda](#). Applicants will be required to discuss how their project relates to the research agenda.

Terms of Support

Performance Period:

The term of performance is January 1 of the award year through December 31 of the award year.

Please consider your proposal and the ability to complete the project in the identified performance period of one year before applying.

Grant Duration:

Support may be provided for up to two years for the grants in the amount of \$25,000. Although funds for a second year are not guaranteed, the investigator may apply for a second year of funding. See reporting requirements below for 2nd year funding.

Allowable expenses:

Funds for an ASPEN Rhoads Research Foundation Grant **may** be used for any of the following:

1. Investigator salary
2. Technician salary
3. Equipment and supplies
4. Animals
5. Clinical research costs
6. Other expenses directly related to the conduct of the proposed research
7. Up to \$1000 in funds may be allocated for a one-year grant to offset costs affiliated with travel to ASPEN's Nutrition Science and Practice Conference to meet grant requirements.

Funds for an ASPEN Rhoads Research Foundation Grant **may NOT** be used for any of the following:

1. Comparison of commercial products
2. Indirect costs or overhead
3. Costs of patient care
4. Constructing or renovating facilities
5. Furniture or office equipment
6. Secretarial services
7. Honoraria or membership dues
8. Textbooks or periodicals
9. Repair or service contract costs on institutional equipment
10. Entertainment
11. Travel other than that listed in allowable expenses

Other Funding Sources:

Grantee, or his/her grant administration department is required to notify the Foundation if funding for grant-supported items is received.

If during the period of support by the ASPEN Rhoads Research Foundation, the investigator obtains funding of equal or greater dollar amount from a source outside the investigator's institution (such as the National Institutes of Health, Veterans Administration or a philanthropic group) for a similar/overlapping research project, the Foundation grant will be terminated at the start of funding by the other agency. However, supplemental funds for budget items not covered by the Foundation Grant will be allowed.

Reporting and Other Grant Requirements**Award Ceremony:**

Grant recipients are strongly encouraged to attend the ASPEN Nutrition Science & Practice Conference to receive recognition at the Foundation reception and the Rhoads Research Lecture and Awards Ceremony. Attendance at the conference also provides recipients access to a network of individuals in the field.

Funds Administration: These grants are given in support of the submitting researcher; however, the appropriate fiscal department of the investigator's institution will administer funds provided by the ASPEN Rhoads Research Foundation. Any unused funds should be returned to the ASPEN Rhoads Research Foundation by the final manuscript submission deadline.

Funding Schedule:

Grant of \$25,000 and above will receive ½ of the awarded funds in December preceding the January performance period start. The second funds installment will be released upon approval of the interim progress report, due in August and paid in September of the grant year. Grants of \$10,000 or less will be paid in full in December preceding the January performance period start. Any unused funds should be returned to the ASPEN Rhoads Research Foundation by the final manuscript submission deadline.

Progress Reports:

NOTE: A grant reporting timeline chart is appended to these instructions.

- All recipients of grants are required to submit a progress report, including a narrative summary and expense report covering the period January 01 to June 30, no later than August of their first grant year to receive payment of the second half of the grant funding. See additional instructions below for applying for a second year of funding for larger grants.
- All grant recipients are additionally required to submit a final progress report and financial statement by March 31 or 3 months after the closing date of their funding period.
- If awarded, please refer to the official award letter from the Foundation for specific progress report deadlines.

No Cost Extensions:

If completion of the research project and attainment of final study results are delayed, a one-time 12-month no cost extension to the original grant terms may be requested. The Foundation considers requests for no cost extensions based on merit and the submission of a no cost extension form. Please contact Sara Fleming (saraf@nutritioncare.org) for this form.

Additional no cost extensions or requests for extensions beyond 12 months will not be considered. In the event that additional time is needed beyond the one-time 12-month no cost extension, the initial grant must be closed out with remaining funds returned to the Foundation and the applicant must submit a new research project grant application to the Foundation by the deadline of the next grant cycle.

Publication of Research Findings stemming from grant-funded work

Grant recipients will advise the Foundation of ANY abstract, manuscript, or presentation generated from outcomes of their Foundation funded research.

All presentations and publications must acknowledge financial support by the Rhoads Research Foundation. "This work was supported by the ASPEN Rhoads Research Foundation."

Within 12 months of the ending date of the performance period, the grantee is required to:

- Submit an abstract for consideration by the ASPEN Abstract Review Committee for potential presentation at the ASPEN Nutrition Science and Practice Conference
- Submit research findings as a manuscript to be considered for publication in *JPEN* or *NCP* (as applicable).
- If the applicant can substantiate in writing that his/her research findings would better impact patient care by publication in another journal, the Foundation may choose to approve it.

Second year funding application: DUE BY THE APPLICATION DEADLINE

Competing continuation applications for smaller grants will be not accepted.

To obtain a second year of funding for grants in the amount of \$25,000 or higher, the first progress report and financial statement* must be submitted prior to the August due date to meet the June application deadline. Additionally, a letter of intent that includes a purpose statement for the 2nd year and a proposed budget, plus an investigator's institutional certification that the investigator is able to continue the project and has the means to do so, is actively doing research, and is receiving no other support related to the same project budget items is required. The letter of intent should be no longer than one page, single-spaced. The letter of intent, the institutional certification, the applicant's first progress report & financial statement, and a copy of the original grant application will be submitted to the Foundation Grant Review Committee for competitive review to determine if a second year of funding will be granted. The Foundation will automatically provide a copy of the original grant application to the Grant Review Committee on your behalf regardless of application submission method.

**Financial statement information is available via the online grant portal, or available upon request from saraf@nutritioncare.org.*

Resubmission Application: DUE BY THE APPLICATION DEADLINE

A resubmission is an unfunded grant application that has been modified following initial review and resubmitted for consideration. For a resubmission you may need to make significant changes compared to the original grant application submission. This section will include a brief summary of substantial additions, deletions, and/or changes to the grant application; and any responses to the issues and criticism raised in the comments or recommendations from Grant Review Summary provided after the original submission.

Review

All applications will be reviewed and ranked by the Foundation Grant Review Committee. The designation of reviewers will be the responsibility of the Committee Chair. An external review committee may be empaneled at the discretion of the Committee.

Lack of alignment of the proposed project to the sciences of nutrition support and metabolic care, as prioritized in the [ASPEN Research Agenda](#), may exclude the grant application from consideration.

The review follows NIH guidelines and includes the following elements:

- Significance
- Investigators
- Innovation
- Approach
- Environment

Additional criteria considered but not scored: Approval of the Institution's IRB or Animal Use Board (as applicable), Inclusion of women, children, and minorities (as applicable), biohazard (as applicable), and budget. NOTE: IRB's may be submitted after the application, but the ASPEN Rhoads Research Foundation encourages the applicant to begin the institutional approval process prior to or by the application submission deadline. Please note the status of institutional assurances in your application and provide any institutional documentation relating to your IRB/IACUC's status. The Foundation will not issue any grant funds until an active IRB (or other approvals as applicable) is received.

Application

The application consists of the following sections; General Information, References, Project Narrative/Abstract, Research Strategy, Key Personnel, Budget, Institutional Assurances, Applicant/Institutional Commitment, and Payment.

References and certifications:

Applicants must submit a letter from their supervisor or department head at the institution confirming his/her commitment to the project. If the project involves human subjects, a letter pledging support in recruiting patients from the primary care provider and the institutional review board overseeing human studies is required prior to the release of funds. For junior faculty and applicants who do not hold faculty positions, three letters of reference are required. One must be from the applicant's collaborator/mentor including the mentor's biographical sketch. Such letters are critically important and should reflect the originality of the investigator's research and potential for independent investigation. Applicants are to request letters of reference well in advance of the application submission.

Project Narrative:

This very brief statement is included to provide the Foundation with a description that could be used to notify the lay public about the grant, if awarded. This project narrative should be no longer than 2-3 sentences.

Abstract of Research Plan:

This includes the long-term objectives and specific aims of the proposal and a concise description of the research design and methods for achieving these goals.

Research Plan/Strategy:

The research plan should be divided into the following parts:

- Part A. Specific aims & **relevance to the [ASPEN Research Agenda](#)***
- Part B. Significance and background
- Part C. Preliminary studies, as applicable
- Part D. Experimental design and methods
- Part E. References
- Part F. Personal aims (limited to one page)
- Part G. Appendix (Optional)

Further Instructions for Research Plan/Strategy:

- Items A - D (Specific Aims, Significance and Background, Preliminary Studies, and Experimental Design and Methods) may not exceed a total of 10 pages.
- Part F. -Principal Investigator: Role on project and Personal Goals
It is the intent of the Foundation to assist nutrition investigators by providing preliminary funding for promising new research. Applicants should include an explanation of their specific role in the project, and describe what new experiences/skills they hope to gain, as well as describing their professional goals and the way in which this grant will assist them in achieving those goals.
- Part G. - Appendix. The appendix may include original, glossy photographs or color images of gels, micrographs, etc. if a photocopy (may be reduced in size) is also included within the page limits of the research plan. No publications or other printed material, with the exception of pre-printed questionnaires or surveys, may be included in the appendix.

- **Page Limitation and set up parameters:**
The page limitations for the parts of the Research Plan are the maximum acceptable, and conciseness of description is desirable. Margins should not be less than 1 inch on all sides. The font must be standard 10-12 points. Font used for Figures, Charts, Tables and Figure Legends may be smaller, but must be clear and readily legible. Applications not meeting these requirements will be returned or will be subject to deferral.

Key Personnel:

If a multidisciplinary team is used be sure to list each person's name, degree, position title, address, ASPEN member status, and their role on the project. Also, provide a Biographical Sketch for the principal investigator and key personnel. If your project mentor is not included in your key personnel, you will be asked to provide their biographical sketch separately within the online application.

Budget:

The budget for the proposal must be well defined, justified and realistic to complete the work proposed. For Other Support and Applicant's Funding History complete per the application. If none, designate as such as indicating

Video:

Submission of a short 1-2 minute introductory video of the grant applicant. The video must include; the name of the principal investigator and title of the project, summary of the research project IN LAYMANS TERMS (which will be used in communication with the public and Foundation donors), and should end with a thank you to ASPEN Rhoads Research Foundation donors.

The Foundation relies upon donations from individuals and corporate entities to fund grants. In such a competitive fundraising environment, it is essential that donors are made aware of the impact of their donations to the Foundation on the research projects and careers of grant recipients. This will be your opportunity to highlight your research, your professional career path, patient stories, etc. in your own words.

Status of Applicable Institutional Assurances (IRB/IACUC):

This section should include the applicable institutional assurance approval letter from the Institutional Review Board (IRB) or the Institutional Animal Care and Use Committee (IACUC) depending on which is appropriate for your project, or an explanation of the current IRB/IACUC approval status and documentation of any steps taken to obtain the applicants institutional IRB/IACUC approval. If the grant is awarded, no funds will be sent until all approvals are provided.

Applicant and Institutional Commitment:

Commitment forms must be signed by the Principal Investigator and by the Institution Official authorized to sign the application on behalf of the institution.

Applications will be denied if received without all applicable documents.

ASPEN Rhoads Research Foundation Grant Award and Reporting

TIMELINE – Large Grants												
	June	Jul.	Aug.	Sept./Oct.	Dec./Jan.	Jan 1	March	Aug	Sep	Dec 31	Mar 31 Of next year	By Dec 31 Of next year
Performance period						Start				Ends		
Grant requirement	Original Application due Or 2 nd year application due			Award Notification			Award ceremony at ASPEN conference – dates vary each year	Interim Progress & Financial report due			Final Progress & Financial report due	Abstract to ASPEN Conference and <i>JPEN</i> manuscript submission
Payment					1st payment				2 nd payment			

2nd year awards follow the same timetable as Year 1 grants.
